# OBI PHARMA, INC. AND SUBSIDIARIES CONSOLIDATED FINANCIAL STATEMENTS AND REVIEW REPORT OF INDEPENDENT ACCOUNTANTS

For the convenience of readers and for information purpose only, the auditors' report and the accompanying financial statements have been translated into English from the original Chinese version prepared and used in the Republic of China. In the event of any discrepancy between the English version and the original Chinese version or any differences in the interpretation of the two versions, the Chinese-language auditors' report and financial statements shall prevail.

### REVIEW REPORT OF INDEPENDENT ACCOUNTANTS TRANSLATED FROM CHINESE

To the Board of Directors and Shareholders of OBI PHARMA, INC.

We have reviewed the accompanying consolidated balance sheets of OBI PHARMA, INC. and its subsidiaries as of September 30, 2016 and 2015, and the related consolidated statements of comprehensive income for the three months and nine months ended September 30, 2016 and 2015, as well as the consolidated statements of changes in equity and of cash flows for the nine months ended September 30, 2016 and 2015. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express a conclusion on these consolidated financial statements based on our reviews.

We conducted our reviews in accordance with the Statement of Auditing Standards No. 36, "Engagements to Review Financial Statements" in the Republic of China. A review consists principally of inquiries of company personnel and analytical procedures applied to financial data. It is substantially less in scope than an audit conducted in accordance with generally accepted auditing standards, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our reviews, we are not aware of any material modifications that should be made to the consolidated financial statements referred to above for them to be in conformity with the "Rules Governing the Preparation of Financial Statements by Securities Issuers" and International Accounting Standard 34, "Interim Financial Reporting" as endorsed by the Financial Supervisory Commission.

The accompanying consolidated financial statements are not intended to present the financial position and results of operations and cash flows in accordance with accounting principles generally accepted in countries and jurisdictions other than the Republic of China. The standards, procedures and practices in the Republic of China governing the review of such financial statements may differ from those generally accepted in countries and jurisdictions other than the Republic of China. Accordingly, the accompanying consolidated financial statements and review report of independent accountants are not intended for use by those who are not informed about the accounting principles or auditing standards generally accepted in the Republic of China, and their applications in practice.

As the financial statements are the responsibility of the management, PricewaterhouseCoopers cannot accept any liability for the use of, or reliance on, the English translation or for any errors or misunderstandings that may derive from the translation.

Except for the following, the above standards and interpretations have no significant impact to the Group's financial condition and operating results based on the Group's assessment. The quantitative impact will be disclosed when the assessment is complete.

### A. Annual improvements to IFRSs 2010-2012 cycle

### IFRS 2, 'Share-based payment'

The amendment clarifies that the definition of a 'vesting condition' includes only service condition and performance condition. The amendment revises the definition of 'service condition', 'performance condition' and 'market condition'.

### B. Annual improvements to IFRSs 2012-2014 cycle

### IAS 34, 'Interim financial reporting'

The amendment clarifies what is meant by the reference in the standard to "information disclosed elsewhere in the interim financial report". The amendment further amends IAS 34 to require a cross-reference from the interim financial statements to the location of that information.

### (3) IFRSs issued by IASB but not yet endorsed by the FSC

New standards, interpretations and amendments issued by IASB but not yet included in the IFRS endorsed by the FSC effective from 2017:

| Recognition of deferred tax assets for unrealised losses (amendments    | January 1, 2017          |

Except for the following, the above standards and interpretations have no significant impact to the Group's financial condition and operating results based on the Group's assessment. The quantitative impact will be disclosed when the assessment is complete.

### A. IFRS 9, 'Financial instruments'

Classification of debt instruments is driven by the entity's business model and the contractual cash flow characteristics of the financial assets, which would be classified as financial asset at fair value through profit or loss, financial asset measured at fair value through other comprehensive income or financial asset measured at amortised cost. Equity instruments would be classified as financial asset at fair value through profit or loss, unless an entity makes an irrevocable election at inception to present in other comprehensive income subsequent changes in the fair value of an investment in an equity instrument that is not held for trading.

### B. IFRS 15, 'Revenue from contracts with customers'

IFRS 15, 'Revenue from contracts with customers' replaces IAS 11, 'Construction Contracts', IAS 18, 'Revenue' and relevant interpretations. According to IFRS 15, revenue is recognised when a customer obtains control of promised goods or services. A customer obtains control of goods or services when a customer has the ability to direct the use of, and obtain substantially all of the remaining benefits from, the asset.

The core principle of IFRS 15 is that an entity recognises revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. An entity recognises revenue in accordance with that core principle by applying the following steps:

- Step 1: Identify contracts with customer
- Step 2: Identify separate performance obligations in the contract(s)
- Step 3: Determine the transaction price
- Step 4: Allocate the transaction price.
- Step 5: Recognise revenue when the performance obligation is satisfied.

Further, IFRS 15 includes a set of comprehensive disclosure requirements that requires an entity to disclose sufficient information to enable users of financial statements to understand the nature, amount, timing and uncertainty of revenue and cash flows arising from contracts with customers.

C. Amendments to IFRS 15, 'Clarifications to IFRS 15, Revenue from Contracts with Customers'

The amendments clarify how to identify a performance obligation (the promise to transfer a good or a service to a customer) in a contract; determine whether a company is a principal (the provider of a good or service) or an agent (responsible for arranging for the good or service to be provided); and determine whether the revenue from granting a license should be recognised at a point in time or over time. In addition to the clarifications, the amendments include two additional reliefs to reduce cost and complexity for a company when it first applies the new Standard.

### D. IFRS 16, 'Leases'

IFRS 16, 'Leases', replaces IAS 17, 'Leases' and related interpretations and SICs. The standard requires lessees to recognise a 'right-of-use asset' and a lease liability (except for those leases with terms of 12 months or less and leases of low-value assets). The accounting stays the same for lessors, which is to classify their leases as either finance leases or operating leases and account for those two types of leases differently. IFRS 16 only requires enhanced disclosures to be provided by lessors.

### 4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of these consolidated financial statements are set out below. These policies have been consistently applied to all the periods presented, unless otherwise stated.

### (1) Compliance statement

The consolidated financial statements of the Group have been prepared in accordance with the "Regulations Governing the Preparation of Financial Reports by Securities Issuers" and the International Accounting Standard 34, "Interim financial reporting" as endorsed by the FSC.

### (2) Basis of preparation

- A. Except for the available-for-sale financial assets measured at fair value, these consolidated financial statements have been prepared under the historical cost convention.
- B. The preparation of financial statements in compliance with International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations as endorsed by the FSC (collectively referred herein as the "IFRSs") requires the use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying the Group's accounting policies. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements are disclosed in Note 5.

### (3) Basis of consolidation

- A. Basis for preparation of consolidated financial statements:
  - (a) All subsidiaries are included in the Group's consolidated financial statements. Subsidiaries are all entities (including structured entities) controlled by the Group. The Group controls an entity when the Group is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Consolidation of subsidiaries begins from the date the Group obtains control of the subsidiaries and ceases when the Group loses control of the subsidiaries.
  - (b) Inter-company transactions, balances and unrealized gains or losses on transactions between companies within the Group are eliminated. Accounting policies of subsidiaries have been adjusted where necessary to ensure consistency with the policies adopted by the Group.
  - (c) Profit or loss and each component of other comprehensive income are attributed to the owners of the parent and to the non-controlling interests. Total comprehensive income is attributed to the owners of the parent and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.
  - (d) Changes in a parent's ownership interest in a subsidiary that do not result in the parent losing control of the subsidiary (transactions with non-controlling interests) are accounted for as equity transactions, i.e. transactions with owners in their capacity as owners. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognized directly in equity.
  - (e) When the Group loses control of a subsidiary, the Group remeasures any investment retained in the former subsidiary at its fair value. That fair value is regarded as the fair value on initial recognition of a financial asset or the cost on initial recognition of the associate or joint venture. Any difference between fair value and carrying amount is recognized in profit or loss. All amounts previously recognized in other comprehensive income in relation to the subsidiary are reclassified to profit or loss on the same basis as would be required if the related assets or liabilities were disposed of. That is, when the Group loses control of a subsidiary, all gains or losses previously recognized in other comprehensive income in relation to the subsidiary should be reclassified from equity to profit or loss, if such gains or losses would be reclassified to profit or loss when the related assets or liabilities are disposed of.
- B. Subsidiaries included in the consolidated financial statements and movements for the period are as follows:

| Name of investor      | Name of subsidiary               | Main business activities  | September 30, 2016 | December 31, 2015 | September 30, 2015 | Remark |
|-----------------------|----------------------------------|---------------------------|--------------------|-------------------|--------------------|--------|
| The Company           | OBI Pharma Limited               | Investing and trading     | 100                | 100               | 100                | -      |
| The Company           | OBI Pharma USA,<br>Inc.          | Biotechnolgoy development | 100                | 100               | 100                | -      |
| OBI Pharma<br>Limited | OBI Pharma<br>(Shanghai) Limited | Biotechnolgoy development | 100                | 100               | 100                | -      |

- C. Subsidiaries not included in the consolidated financial statements: None.
- D. Adjustments for subsidiaries with different balance sheet dates: None.
- E. Significant restrictions: None.
- F. Subsidiaries that have non-controlling interests that are material to the Group: None.

### (4) Foreign currency translation

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates (the "functional currency"). The consolidated financial statements are presented in New Taiwan dollars, which is the Company's functional and the Group's presentation currency.

### A. Foreign currency transactions and balances

- (a) Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions or valuation where items are remeasured. Foreign exchange gains and losses resulting from the settlement of such transactions are recognized in profit or loss in the period in which they arise.
- (b) Monetary assets and liabilities denominated in foreign currencies at the period end are retranslated at the exchange rates prevailing at the balance sheet date. Exchange differences arising upon re-translation at the balance sheet date are recognized in profit or loss.
- (c) Non-monetary assets and liabilities denominated in foreign currencies held at fair value through profit or loss are re-translated at the exchange rates prevailing at the balance sheet date; their translation differences are recognized in profit or loss. Non-monetary assets and liabilities denominated in foreign currencies held at fair value through other comprehensive income are re-translated at the exchange rates prevailing at the balance sheet date; their translation differences are recognized in other comprehensive income. However, non-monetary assets and liabilities denominated in foreign currencies that are not measured at fair value are translated using the historical exchange rates at the dates of the initial transactions.
- (d) All other foreign exchange gains and losses based on the nature of those transactions are presented in the statement of comprehensive income within "other gains and losses".

### B. Translation of foreign operations

The operating results and financial position of all the group entities that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- (a) Assets and liabilities for each balance sheet presented are translated at the closing exchange rate at the date of that balance sheet;
- (b) Income and expenses for each statement of comprehensive income are translated at average exchange rates of that period; and
- (c) All resulting exchange differences are recognized in other comprehensive income.

### (5) Classification of current and non-current items

- A. Assets that meet one of the following criteria are classified as current assets:
  - (a) Assets arising from operating activities that are expected to be realized, or are intended to be sold or consumed within the normal operating cycle;
  - (b) Assets held mainly for trading purposes;
  - (c) Assets that are expected to be realized within twelve months from the balance sheet date;
  - (d) Cash and cash equivalents, excluding restricted cash and cash equivalents and those that are to be exchanged or used to pay off liabilities more than twelve months after the balance sheet date.

Otherwise, they are classified as non-current assets.

- B. Liabilities that meet one of the following criteria are classified as current liabilities:
  - (a) Liabilities that are expected to be paid off within the normal operating cycle;
  - (b) Liabilities arising mainly from trading activities;
  - (c) Liabilities that are to be paid off within twelve months from the balance sheet date;
  - (d) Liabilities for which the repayment date cannot be extended unconditionally to more than twelve months after the balance sheet date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

Otherwise, they are classified as non-current liabilities.

### (6) Cash equivalents

Cash equivalents refer to short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. Time deposits that meet the definition above and are held for the purpose of meeting short-term cash commitments in operations are classified as cash equivalents.

### (7) Available-for-sale financial assets

A. Available-for-sale financial assets are non-derivatives that are either designated in this category

or not classified in any of the other categories.

- B. On a regular way purchase or sale basis, available-for-sale financial assets are recognized and derecognized using trade date accounting.
- C. Available-for-sale financial assets are initially recognized at fair value plus transaction costs. These financial assets are subsequently remeasured and stated at fair value, and any changes in the fair value of these financial assets are recognized in other comprehensive income.

### (8) Loans and receivables - investments in debt instruments without active market

Bond investments without active market held by the Group are those time deposits with a short maturity period but do not qualify as cash equivalents, and they are measured at initial investment amount as the effect of discounting is immaterial.

### (9) Impairment of financial assets - available-for-sale financial assets

- A. The Group assesses at each balance sheet date whether there is objective evidence that a financial asset or a group of financial assets is impaired as a result of one or more events that occurred after the initial recognition of the asset (a 'loss event') and that loss event (or events) has an impact on the estimated future cash flows of the financial asset or group of financial assets that can be reliably estimated.
- B. The criteria that the Group uses to determine whether there is objective evidence of an impairment loss is as follows:
  - (a) Significant financial difficulty of the issuer or debtor;
  - (b) Observable data indicating that there is a measurable decrease in the estimated future cash flows from a group of financial assets since the initial recognition of those assets, although the decrease cannot yet be identified with the individual financial asset in the group, including adverse changes in the payment status of borrowers in the group or national or local economic conditions that correlate with defaults on the assets in the group;
  - (c) Information about significant changes with an adverse effect that have taken place in the technology, market, economic or legal environment in which the issuer operates, and indicates that the cost of the investment in the equity instrument may not be recovered; or
  - (d) A significant or prolonged decline in the fair value of an investment in an equity instrument below its cost.
- C. When the Group assesses that there has been objective evidence of impairment and an impairment loss has occurred, the amount of the impairment loss is measured as the difference between the asset's acquisition cost (less any principal repayment and amortization) and current fair value, less any impairment loss on that financial asset previously recognized in profit or loss, and is reclassified from "other comprehensive income" to "profit or loss". Impairment loss of an investment in an equity instrument recognized in profit or loss shall not be reversed through profit or loss. Impairment loss is recognized and reversed by adjusting the carrying amount of the asset through the use of an impairment allowance account.

### (10) Derecognition of financial assets

The Group derecognizes a financial asset when the contractual rights to receive the cash flows from the financial asset expire.

### (11) Property, plant and equipment

- A. Property, plant and equipment are initially recorded at cost.
- B. Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognized. All other repairs and maintenance are charged to profit or loss during the financial period in which they are incurred.
- C. Property, plant and equipment apply cost model and are depreciated using the straight-line method to allocate their cost over their estimated useful lives. Each part of an item of property, plant, and equipment with a cost that is significant in relation to the total cost of the item must be depreciated separately.
- D. The assets' residual values, useful lives and depreciation methods are reviewed, and adjusted if appropriate, at each balance sheet date. If expectations for the assets' residual values and useful lives differ from previous estimates or the patterns of consumption of the assets' future economic benefits embodied in the assets have changed significantly, any change is accounted for as a change in estimate under IAS 8, "Accounting Policies, Changes in Accounting Estimates and Errors", from the date of the change. The estimated useful lives of property, plant and equipment are as follows:

Lab equipment3~5 yearsOffice equipment3~5 yearsLeasehold improvements3~5 years

### (12) Leased assets/leases (lessee)

An operating lease is a lease that the lessor assumes substantially all the risks and rewards incidental to ownership of the leased asset. Payments made under an operating lease (net of any incentives received from the lessor) are recognized in profit or loss on a straight-line basis over the lease term.

### (13) Intangible assets

### A. Patent:

- (a) Patents acquired in intellectual property right as equity are recognized at fair value at the acquisition date, and amortized on a straight-line basis over their estimated useful lives.
- (b) Patents acquired in cash are stated at cost and amortized on a straight-line basis over their estimated useful lives.

### B. Computer software

Computer software is stated at cost and amortised on a straight-line basis over its estimated useful

life of 3 to 5 years.

### (14) Impairment of non-financial assets

The Group assesses at each balance sheet date the recoverable amounts of those assets where there is an indication that they are impaired. An impairment loss is recognized for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell or value in use. Except for goodwill, when the circumstances or reasons for recognizing impairment loss for an asset in prior years no longer exist or diminish, the impairment loss is reversed. The increased carrying amount due to reversal should not be more than what the depreciated or amortized historical cost would have been if the impairment had not been recognized.

### (15) Notes and accounts payable

Notes and accounts payable are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. They are recognized initially at fair value and subsequently measured at amortized cost using the effective interest method. However, short-term accounts payable without bearing interest are subsequently measured at initial invoice amount as the effect of discounting is immaterial.

### (16) Derecognition of financial liabilities

A financial liability is derecognized when the obligation under the liability specified in the contract is discharged or cancelled or expires.

### (17) Offsetting financial instruments

Financial assets and liabilities are offset and reported in the net amount in the balance sheet when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously.

### (18) Employee benefits

### A. Short-term employee benefits

Short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in respect of service rendered by employees in a period and should be recognized as expenses in that period when the employees render service.

### B. Pensions - Defined contribution plans

For defined contribution plans, the contributions are recognized as pension expenses when they are due on an accrual basis. Prepaid contributions are recognized as an asset to the extent of a cash refund or a reduction in the future payments.

### C. Termination benefits

Termination benefits are employee benefits provided in exchange for the termination of employment as a result from either the Group's decision to terminate an employee's employment before the normal retirement date, or an employee's decision to accept an offer of redundancy benefits in exchange for the termination of employment. The Group recognises expense as it can

no longer withdraw an offer of termination benefits or it recognises related restructuring costs, whichever is earlier. Benefits that are expected to be due more than 12 months after balance sheet date shall be discounted to their present value.

### D. Employees' compensation and directors' and supervisors' remuneration

Employees' compensation and directors' and supervisors' remuneration are recognized as expenses and liabilities, provided that such recognition is required under legal or constructive obligation and those amounts can be reliably estimated. However, if the accrued amounts for employees' compensation and directors' and supervisors' remuneration are different from the actual distributed amounts as resolved by the shareholders at their shareholders' meeting subsequently, the differences should be recognized based on the accounting for changes in estimates.

### (19) Employee share-based payment

For the equity-settled share-based payment arrangements, the employee services received are measured at the fair value of the equity instruments granted at the grant date, and are recognized as compensation cost over the vesting period, with a corresponding adjustment to equity. The fair value of the equity instruments granted shall reflect the impact of market vesting conditions and non-market vesting conditions. Compensation cost is subject to adjustment based on the service conditions that are expected to be satisfied and the estimates of the number of equity instruments that are expected to vest under the non-market vesting conditions at each balance sheet date. Ultimately, the amount of compensation cost recognized is based on the number of equity instruments that eventually vest.

### (20) Income tax

- A. The tax expense for the period comprises current and deferred tax. Tax is recognized in profit or loss, except to the extent that it relates to items recognized in other comprehensive income or items recognized directly in equity, in which cases the tax is recognized in other comprehensive income or equity.
- B. The current income tax expense is calculated on the basis of the tax laws enacted or substantively enacted at the balance sheet date in the countries where the Company and its subsidiaries operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in accordance with applicable tax regulations. It establishes provisions where appropriate based on the amounts expected to be paid to the tax authorities. An additional 10% tax is levied on the unappropriated retained earnings and is recorded as income tax expense in the year the shareholders resolve to retain the earnings.
- C. Deferred income tax is recognized, using the balance sheet liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated balance sheet. However, the deferred income tax is not accounted for if it arises from initial recognition of goodwill or of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred tax is provided on temporary differences arising on investments in subsidiaries except where the timing of the reversal of the temporary difference is controlled by the Group

and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the balance sheet date and are expected to apply when the related deferred income tax asset is realized or the deferred income tax liability is settled.

- D. Deferred income tax assets are recognized only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilized. At each balance sheet date, unrecognized and recognized deferred income tax assets are reassessed.
- E. Current income tax assets and liabilities are offset and the net amount reported in the balance sheet when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously. Deferred income tax assets and liabilities are offset on the balance sheet when the entity has the legally enforceable right to offset current tax assets against current tax liabilities and they are levied by the same taxation authority on either the same entity or different entities that intend to settle on a net basis or realize the asset and settle the liability simultaneously.
- F. A deferred tax asset shall be recognized for the carryforward of unused tax credits resulting from research and development expenditures, to the extent that it is possible that future taxable profit will be available against which the unused tax credits can be utilized.
- G. The interim period income tax expense is recognized based on the estimated average annual effective income tax rate expected for the full financial year applied to the pretax income of the interim period, and the related information is disclosed accordingly.

### (21) Share capital

- A. Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or stock options are shown in equity as a deduction, net of tax, from the proceeds.
- B. Where the Company repurchases the Company's equity share capital that has been issued, the consideration paid, including any directly attributable incremental costs (net of income taxes) is deducted from equity attributable to the Company's equity holders. Where such shares are subsequently reissued, the difference between their book value and any consideration received, net of any directly attributable incremental transaction costs and the related income tax effects, is included in equity attributable to the Company's equity holders.

### (22) Revenue recognition

Revenue is recognised when the license agreements meet all of the following criteria for revenue recognition:

- A. Royalties are fixed or cannot be refunded.
- B. Contracts are irrevocable.
- C. Franchisee has the latitude in dealing with related license.
- D. Franchisor has no other obligation after giving the license.

If license agreements do not meet the above conditions, royalties are recognised as revenue using a

reasonable and systematic method. The recognition should not be a one-time recognition.

### (23) Government grants

Government grants are recognized at their fair value only when there is reasonable assurance that the Group will comply with any conditions attached to the grants and the grants will be received. Government grants are recognized in profit or loss on a systematic basis over the periods in which the Group recognizes expenses for the related costs for which the grants are intended to compensate.

### (24) Operating segments

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker, who is responsible for allocating resources and assessing performance of the operating segments.

### 5. <u>CRITICAL ACCOUNTING JUDGEMENTS</u>, <u>ESTIMATES AND KEY SOURCES OF</u> ASSUMPTION UNCERTAINTY

The preparation of these consolidated financial statements requires management to make critical judgements in applying the Group's accounting policies and make critical assumptions and estimates concerning future events. Assumptions and estimates may differ from the actual results and are continually evaluated and adjusted based on historical experience and other factors. Such assumptions and estimates have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year; and the related information is addressed below:

### (1) Critical judgements in applying the Group's accounting policies

Financial assets-impairment of equity investments:

The Group follows the guidance of IAS 39 to determine whether a financial asset-equity investment is impaired. This determination requires significant judgement. In making this judgement, the Group evaluates, among other factors, the duration and extent to which the fair value of an equity investment is less than its cost and the financial health of and short-term business outlook for the investee, including factors such as industry and sector performance, changes in technology and operational and financing cash flow.

### (2) Critical accounting estimates and assumptions

### A. Impairment assessment of tangible and intangible assets (excluding goodwill)

The Group assesses impairment based on its subjective judgement and determines the separate cash flows of a specific group of assets, useful lives of assets and the future possible income and expenses arising from the assets depending on how assets are utilized and industrial characteristics. Any changes of economic circumstances or estimates due to the change of Group strategy might cause material impairment on assets in the future.

### B. Financial assets-fair value measurement of unlisted stocks without active market

The fair value of unlisted stocks held by the Group that are not traded in an active market is determined considering those companies' recent fund raising activities, fair value assessment of other companies of the same type technical development status, market conditions and other economic indicators existing on balance sheet date. Any changes in these judgements and estimates will impact the fair value measurement of these unlisted stocks. Please refer to Note 12(3) for the financial instruments fair value information.

### 6. DETAILS OF SIGNIFICANT ACCOUNTS

### (1) Cash and cash equivalents

|                       | Septe | ember 30, 2016 December 31, 2015 |    |           | September 30, 2015 |           |  |
|-----------------------|-------|----------------------------------|----|-----------|--------------------|-----------|--|
| Cash on hand          | \$    | 100                              | \$ | 60        | \$                 | 60        |  |
| Checking accounts and |       |                                  |    |           |                    |           |  |
| demand deposits       |       | 413,289                          |    | 126,170   |                    | 118,940   |  |
| Time deposits         |       | 647,088                          |    | 2,174,318 |                    | 3,063,559 |  |
|                       | \$    | 1,060,477                        | \$ | 2,300,548 | \$                 | 3,182,559 |  |

- A. The Group associates with a variety of financial institutions all with high credit quality to disperse credit risk, so it expects that the probability of counterparty default is remote.
- B. The Group has no cash and cash equivalents pledged to others.

### (2) Available-for-sale financial assets

| Items             | Septemb | per 30, 2016 | December 31, 2015 |        | September 30, 2015 |        |  |
|-------------------|---------|--------------|-------------------|--------|--------------------|--------|--|
| Non-current item: | •       |              |                   |        |                    |        |  |
| Unlisted stocks   | \$      | 27,181       | \$                | 22,500 | \$                 | 22,500 |  |

- A. In January 2016, the Group paid \$4,681 for participating proportionately to its share ownership in the Agnitio Science & Technology Inc.'s capital increase for 234 thousand shares. After the capital increase, the Group held 1,734 thousand shares in Agnitio Science & Technology Inc. and the shareholding ratio was 4.19%.
- B. The Group has no available-for-sale financial assets pledged to others.

### (3) Investments in debt instrument without active markets

| Items             | Septer | September 30, 2016 |    | ember 31, 2015 | September 30, 2015 |           |  |
|-------------------|--------|--------------------|----|----------------|--------------------|-----------|--|
| Non-current item: |        |                    |    |                |                    |           |  |
| Time deposits     | \$     | 4,948,800          | \$ | 4,762,163      | \$                 | 3,996,267 |  |

- A. The Group recognized interest income of \$9,073, \$7,618, \$31,660 and \$9,298 for time deposits with maturity over 1 year in profit or loss for the three months ended September 30, 2016 and 2015, and nine months ended September 30, 2016 and 2015, respectively.
- B. The Group has no investments in debt instrument without active markets pledged to others.

### (4) Property, plant and equipment

Note: Except for the amortisation of computer software which was recognised as "Operating expenses - management expenses", amortisation of other intangible assets is recognised as "Operating expenses - research and development expenses".

- A. The Company purchased patents named "OPT-822", therapeutically metastatic breast cancer vaccines, and "OPT-80", Macrolide, from Optimer Pharmaceuticals, Inc. (the name "Optimer" is no longer used since January 2013 and the name was changed to "OBI-822/821" after the organization changed in October 2012) on December 29, 2003. The main contract information is as follows:
  - (a) The patent amounting to USD 6 million (approximately NTD 204 million) based on the appraisal report, was acquired as intellectual property right through equity of 20,400 thousand shares.
  - (b) The Company signed an authorized sale contract for Antibiotics-Fidaxomicin with OPT on June 6, 2011. The contract states that the Company must pay royalty fees to OPT based on 17% or 22% of sales under the revenue achievements. The payment period of the royalty fee is the duration of patent right or ten years starting from the initial sales, whichever is later.
  - (c) The Company signed a patent transfer contract for Macrolide with Optimer Pharmaceuticals, Inc. on October 30, 2009. The price was \$109,126 and the Company recognized a gain on disposal of assets amounting to \$26,660 by deducting the costs of \$116,423 and accumulated

- amortization of \$33,957.
- (d) The Company needs to pay the annual fee and achieved milestones. As of September 30, 2016, the remaining unpaid amount for achieved milestones amounted to US\$13,250 thousand. The amount of payment was determined based on whether the milestones in the agreement are achieved or not. Furthermore, the Company must pay royalty fees based on a certain percentage of the sales of patented products annually.
- B. In order to improve mass production and manufacturing process of OBI-822 for expanding global market, the Company has signed an exclusive patent license for chemosynthesis of carbohydrates with Academia Sinica on April 23, 2014, and the contract period is from April 23, 2014 to the expiration of protection duration of the last patented product. The Company must pay patent licensing fees and royalty fees in accordance with the contract. Except for royalty fees, the Company assesses whether to pay patent licensing fees based on 4 achieved milestones. The total contract amount was approximately \$60,000. Further, pursuant to the supplements and amendments agreement on February 18, 2016, the patent licensing fees reduced to \$57,320. As of September 30, 2016, the Company paid royalty fees of \$20,000 in 2014 and paid patent licensing fees of \$27,320 for the nine months ended September 30, 2016. These fees were recognised as research and development expenses.
- C. The Company purchased a patent named "product development project of botulinum" from Amaran Biotechnology Inc. on March 2, 2012, which amounted to \$42,858 based on external experts' valuation.
- D. The Company acquired patents named "next-generation cancer vaccine" and "reagent for cancer screening". The contract states that the Company must pay royalty fees based on the achieved milestones. In 2013, the Company paid royalty fees of \$1,500 separately for both projects. Furthermore, the Company must pay royalty fees based on a certain percentage of the sales of patented products annually.
- E. On October 2, 2015, the Company signed an agreement to transfer exclusive rights of DIFICID (generic name: Fidaxomicin) to Optimer Pharmaceuticals, LLC. (Optimer). The agreement is available until the expiration date of patents which is estimated to be November 27, 2128. The Company will transfer the relevant rights of DIFICID to Optimer Company based on the mutual agreement. Optimer Company should pay the Company: (i) upfront payment of USD3 million; (ii) accumulated net sales amount and milestone payment for new indications: not higher than USD 3.25 million and USD1 million per new indication; (iii) royalty fees for sales: certain percentage of net sales amount. Optimer Company's associate in Taiwan, Merck Sharp & Dohme (I.A.) LLC. Taiwan Branch (MSD), is responsible for the operation of DIFICID in Taiwan. As of September 30, 2016, the Company has received USD 3 million based on the agreement and transferred the relevant rights of DIFICID to MSD. The authorized sale contract described above in A.(b) will be terminated once the upfront payment for the agreement to transfer exclusive rights of DIFICID to Optimer Pharmaceutical, LLC. has been fully collected.
- F. The Group has no intangible assets pledged to others.

### (6) Pension

A. Effective July 1, 2005, the Company has established a defined contribution pension plan (the "New Plan") under the Labor Pension Act (the "Act"), covering all regular employees with R.O.C. nationality. Under the New Plan, the Company contributes monthly an amount based on 6% of

the employees' monthly salaries and wages to the employees' individual pension accounts at the Bureau of Labor Insurance. The benefits accrued are paid monthly or in lump sum upon termination of employment. The pension costs under the defined contribution pension plans of the Company were \$1,770, \$2,239, \$4,895 and \$4,709 for the three months ended September 30, 2016 and 2015, and nine months ended September 30, 2016 and 2015, respectively.

B. For the pension plan by local government regulations, OBI Pharma USA, Inc. and OBI Pharma (Shanghai) Limited, recognised pension costs of \$730, \$737, \$2,244 and \$1,794 for the three months ended September 30, 2016 and 2015, and nine months ended September 30, 2016 and 2015, respectively.

### (7) Share-based payment

A. The options were granted to qualified employees of the Company by issuing new shares when exercised. The options are valid for 10 years. The major contents were as follows:

| Type of agreement Employee stock option plan           | Grant date 2010.03.08 | No. of units 2,360,000 | Subscription share per unit | Vesting conditions One year after grant, employees can exercise options monthly at a           | Weighted-average remaining contract period (years)  3.44 |

For the nine months ended September 30, 2015: None.

- (b) Pursuant to the R.O.C. Securities and Exchange Law, the number of shares bought back as treasury share should not exceed 10% of the number of the Company's issued and outstanding shares and the amount bought back should not exceed the sum of retained earnings, paid-in capital in excess of par value and realized capital surplus.
- (c) Pursuant to the R.O.C. Securities and Exchange Law, treasury shares should not be pledged as collateral and is not entitled to dividends before it is reissued.
- (d) Pursuant to the R.O.C. Securities and Exchange Law, treasury shares should be reissued to the employees within three years from the reacquisition date and shares not reissued within the three-year period are to be retired.
- (e) The price range of actual repurchased treasury shares was between  $$431.88 \sim $454.26$  (in dollars). The average repurchased amount was \$448.63 (in dollars) and the actual repurchased amount was \$386,721.

### (9) Capital surplus

Pursuant to the R.O.C. Company Act, capital surplus arising from paid-in capital in excess of par value on issuance of common stocks and donations can be used to cover accumulated deficit or to issue new stocks or cash to shareholders in proportion to their share ownership, provided that the Company has no accumulated deficit. Further, the R.O.C. Securities and Exchange Law requires that the amount of capital surplus to be capitalised mentioned above should not exceed 10% of the paid-

in capital each year. Capital surplus should not be used to cover accumulated deficit unless the legal reserve is insufficient.

### (10) Accumulated deficit

- A. According to the Articles of Incorporation of the Company, a ratio of profit of the current year distributable, after covering accumulated losses, shall be distributed as employees' compensation and directors' and supervisors' remuneration. The ratio shall not be lower than 2% for employees' compensation and shall not be higher than 2% for directors' and supervisors' remuneration. A company may, by a resolution adopted by a majority vote at a meeting of Board of Directors attended by two-thirds of the total number of directors, have the abovementioned employees' compensation distributed in the form of shares or in cash; and in addition thereto a report of such distribution shall be submitted during the shareholders' meeting. Qualification requirements of employees, including the employees of subsidiaries of the company meeting certain specific requirements, entitled to receive aforementioned stock or cash may be specified in the Articles of Incorporation. The term shall be defined by the Board of Directors. The current year's earnings, if any, shall first be used to pay all taxes and offset prior years' operating losses and then 10% of the remaining amount shall be set aside as legal reserve. Cash dividends shall first be appropriated, and the remainder, if any, to be retained or to be appropriated shall be resolved by the stockholders at the stockholders' meeting.
- B. The Company is facing a capital intensive industrial environment, with the life cycle of the industry in the growth phase. The residual dividend policy is adopted taking into consideration the Company's operating expansion plans and investment demands. According to the balanced

dividend policy adopted by the Board of Directors, stock dividends and cash dividends will be allocated in consideration of the actual net income and funds status and are subject to the approval by the Board of Directors and resolution by shareholders and cash dividends shall account for at least 10% of the total dividends distributed.

- C. Except for covering accumulated deficit, increasing capital or payment of cash, the legal reserve shall not be used for any other purpose. The amount capitalized or the cash payment shall not exceed 25% of the paid-in capital.
- D. As resolved by the shareholders on June 27, 2016, the Company's deficit compensation for 2015 is as follows:

|  | 2015 |            |  |  |  |
|--|------|------------|--|--|--|
| Accumulated deficit at beginning of the year | (\$  | 1,861,812) |  |  |  |
| Net loss in 2015                             | (    | 941,337)   |  |  |  |
| Accumulated deficit at end of the year       | (\$  | 2,803,149) |  |  |  |

E. For the information relating to employees' compensation and directors' and supervisors' remuneration, please refer to Note 6(15).

A. The Company obtained government grants for OBI-822 (former name: OPT-822/821), therapeutically metastatic breast cancer vaccines, in Phase II / III from Department of Industrial Technology of Ministry of Economic Affairs R.O.C. (MOEA) on December 25, 2012. The contract period is July 1, 2012 to June 30, 2016 and contract grant is \$75,128. The government grants contract ended on June 30, 2016, and the contract grant of \$75,128 had been fully collected. The Company recognized government grants of \$0, \$1,415, \$0 and \$7,434 based on the development progress for the three months ended September 30, 2016 and 2015, and nine months ended September 30, 2016 and 2015, respectively.

In accordance with the above plan signed under the Technology Development Program by Ministry of Economic Affairs, if OBI-822 (formerly OPT-822/821) will be successfully licensed to others, the Company promises to contribute 5% of the signing bonus and achieved milestones as feedback fund and the maximum amount for feedback fund is \$150,256.

In the second quarter of 2016, the Company received the legal attest letter from Securities and Futures Investors Protection Center whereby the Company was required to enforce disgorgement. The Company has enforced disgorgement and recognised disgorgement profits amounting to \$22,773.

- A. According to the Articles of Incorporation, a ratio of profit of the current year distributable, after covering accumulated losses, shall be distributed as employees' compensation and directors' and supervisors' remuneration. The ratio shall not be lower than 2% for employees' compensation and shall not be higher than 2% for directors' and supervisions' remuneration. A company may, by a resolution adopted by a majority vote at a meeting of Board of Directors attended by two-thirds of the total number of directors, have the abovementioned employees' compensation distributed in the form of shares or in cash; and in addition thereto a report of such distribution shall be submitted to the shareholders during their meeting. Qualification requirements of employees, including the employees of subsidiaries of the company meeting certain specific requirements, entitled to receive aforementioned stock or cash may be specified in the Articles of Incorporation. The term shall be defined by the Board of Directors.
- B. For the three months ended September 30, 2016 and 2015, and nine months ended September 30, 2016 and 2015, no employees' compensation and directors' and supervisors' remuneration was accrued. Information about employees' compensation and directors' and supervisors' remuneration of the Company as approved by the Board of Directors will be posted in the "Market Observation Post System" at the website of the Taiwan Stock Exchange.

### (16) Income tax

A. Components of income tax expense:

|                   | Three months ended September 30, |               |          |         |

| Total current tax | \$                               | 1,731         | \$       | 1,209   |
| Tax expense       | \$                               | 1,731         | \$       | 1,209   |

B. The Tax Authority has examined the Company's income tax returns through 2013.

### C. Accumulated deficit:

September 30, 2016 December 31, 2015 September 30, 2015

Deficit generated in and after 1998 (\$ 3,635,745) (\$ 2,803,149) (\$ 2,542,783)

D. As of September 30, 2016, December 31, 2015 and September 30, 2015, the balance of the imputation credit account was all \$0, and no earnings can be distributed due to the accumulated deficit. As a result, there is no creditable tax rate for earnings.

### (17) Loss per share

|                                  |             |              | Weighted-average      |                |
|                                  |             |              | number of ordinary    |                |
|                                  |             |              | shares outstanding    | Loss per share |
|                                  | Amoun       | nt after tax | (shares in thousands) | (in dollars)   |
| Basic and diluted loss per share | _           |              |                       |                |
| Net loss                         | (\$         | 680,971)     | 164,806               | (\$ 4.13)      |

The potential ordinary shares have anti-dilutive effect due to net loss for the nine months ended September 30, 2016 and 2015, so the calculation of diluted loss per share is the same as the calculation of basic earnings per share.

# (18) Operating leases

The Group leases offices under non-cancellable operating lease agreements. For the three months ended September 30, 2016 and 2015 and nine months ended September 30, 2016 and 2015, the Group recognized rental expenses of \$5,745, \$4,108, \$16,590 and \$10,684, respectively. Information about the future aggregate minimum lease payments under non-cancellable operating leases are disclosed in Note 9.

# (19) Supplemental cash flow information

| Other related parties | \$                              | 17,142    | \$ | 6,470 |
|                       | Nine months ended September 30, |           |    |       |
|                       |                                 | 2016      | 2  | 2015  |
| Other related parties | \$                              | 34,503    | \$ | 6,470 |

- (a) In January 2016, the Group signed the drugs purchase agreement for clinical trial of OBI-821 and OBI-822 with other related parties. The purchase amount was \$46,850 which was based on the mutual agreement.
- (b) On August 25, 2015, the Group signed a service contract of OBI-821 with other related parties

and the estimated payable is \$21,568.

# B. Other payables

|                       | September 30, 2016 | December 31, 2015 | September 30, 2015 |
|-----------------------|--------------------|-------------------|--------------------|
| Other related parties | \$                 | \$ 6,470          | \$ -               |

#### C. Property transactions

On March 26, 2016, the Group signed the purchase agreement for production equipment with other related parties. The Group purchased the existing equipment from other related parties and made it available for processing related products of OBI-821/822, Globo H and OBI-858. The initial acquisition cost of \$108,753 less the carrying amount (net of accumulated depreciation) was the purchase amount. As of November 11, 2016, ownership has been transferred and payment has been made amounting to \$47,053. The ownership of the remaining equipment has not yet been transferred. In 2015, experimental equipment of \$3,878 was purchased from other related parties.

#### 8. PLEDGED ASSETS

The Group's assets pledged as collateral are as follows:

|                          |                    | Book value        |                    |   |
|--------------------------|--------------------|-------------------|--------------------|---|
| Pledged asset            | September 30, 2016 | December 31, 2015 | September 30, 2015 | Purpose   |
| Other non-current assets |                    |                   |                    | Deposits for import<br>duty, bank loan, clinical<br>trial agreement and |
|                          | \$ 32,978          | \$ 34,131         | \$ 20,811          | rental deposit, etc.  |

# 9. <u>SIGNIFICANT CONTINGENT LIABILITIES AND UNRECOGNIZED CONTRACT</u> <u>COMMITMENTS</u>

Except for the promised payments described in Notes 6(5) Intangible assets, 7(2) Related party transactions and 11 Significant events after the balance sheet date, the Group entered into operating lease contracts for its offices. Future lease payments under those leases as of September 30, 2016 were as follows:

values. Please refer to Note 12(3) for the fair value information of financial instruments measured at fair value.

# B. Financial risk management policies

- (a) The Group's activities expose it to a variety of financial risks: market risk (including foreign exchange risk and price risk), credit risk and liquidity risk. The Group's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Group's financial position and financial performance.
- (b) Risk management is carried out by a central treasury department (Group treasury) under policies approved by the Board of Directors. Group treasury identifies, evaluates and hedges financial risks in close cooperation with the Company's operating units. The Board provides written principles for overall risk management, as well as written policies covering specific areas and matters, such as foreign exchange risk, interest rate risk, credit risk, use of derivative financial instruments and non-derivative financial instruments, and investment of excess liquidity.

# C. Significant financial risks and degrees of financial risks

#### (a) Market risk

# Foreign exchange risk

- A. The Group operates internationally and is exposed to foreign exchange risk arising from various currency exposures, primarily with respect to the USD and RMB. Foreign exchange risk arises from future commercial transactions, recognized assets and liabilities and net investments in foreign operations.
- B. Management has set up a policy to require group companies to manage their foreign exchange risk against their functional currency. The group companies are required to hedge their entire foreign exchange risk exposure with the Group treasury. Foreign exchange risk arises when future commercial transactions or recognized assets or liabilities are denominated in a currency that is not the entity's functional currency.
- C. The Group has certain investments in foreign operations, whose net assets are exposed to foreign currency translation risk.
- D. The Group's businesses involve some non-functional currency operations (the Company's functional currency: NTD; the subsidiaries' functional currencies: USD and RMB). The information on assets and liabilities denominated in foreign currencies whose values would be materially affected by the exchange rate fluctuations is as follows:

E. The total exchange (loss) gain, including realised and unrealised arising from significant foreign exchange variation on the monetary items held by the Group for the three months

ended September 30, 2016 and 2015 and nine months ended September 30, 2016 and 2015 amounted to (\$73,552), \$84,103, (\$151,931) and \$78,232, respectively.

#### Price risk

- A. The Group is exposed to equity securities price risk because of investments held by the Group and classified on the consolidated balance sheet as available-for-sale. To manage its price risk arising from investments in equity securities, the Group diversifies its portfolio. Diversification of the portfolio is done in accordance with the limits set by the Group.
- B. The prices of the Group's investments in equity securities would change due to the change of the future value of investee companies. If the prices of these equity securities had increased/decreased by 1% with all other variables held constant, other components of equity would have increased/decreased by \$272 and \$225, respectively, as a result of gains/losses on equity securities classified as available-for-sale.

# (a) Credit risk

- i. Credit risk refers to the risk of financial loss to the Group arising from default by the counterparties of financial instruments on the contract obligations. Credit risk arises from deposits in banks and financial institutions, as well as credit exposures to associated research agencies, including outstanding receivables and committed transactions. For banks and financial institutions, only those with the stable credit quality are accepted.
- ii For the nine months ended September 30, 2016 and 2015, management does not expect any significant losses from non-performance by these counterparties.

# (b) Liquidity risk

- i. Cash flow forecasting is performed by Group treasury to monitor rolling forecasts of the Group's liquidity requirements to ensure it has sufficient cash to meet operational and R&D needs. Such forecasting is in compliance with internal R&D project schedule targets.
- ii. Group treasury invests surplus cash in interest bearing current accounts, time deposits, money market deposits and marketable securities, choosing instruments with appropriate maturities or sufficient liquidity to provide sufficient headroom as determined by the abovementioned forecasts. As at September 30, 2016, December 31, 2015 and September 30, 2015, the Group's investments in debt instrument without active market amounted to \$4,948,800, \$4,762,163 and \$3,996,267, respectively, that are expected to readily generate cash inflows for managing liquidity risk.
- iii. The table below analyses the Group's non-derivative financial liabilities into relevant maturity groupings based on the remaining period at the balance sheet date to the contractual maturity date for non-derivative financial liabilities. The amounts disclosed in the table are the contractual undiscounted cash flows.

| Non-derivative financial liabilities: |                    |                     |               |             |           |
| Other payables                        | \$ 24,284          | \$ 12,410           | \$ 2,190      | \$ -        | \$ 38,884 |

iv. The Group does not expect the timing of occurrence of the cash flows estimated through the maturity date analysis will be significantly earlier, nor expect the actual cash flow amount will be significantly different.

#### (3) Fair value information

- A. Details of the fair value of the Group's financial assets and financial liabilities not measured at fair value are provided in Note 12(2) A.
- B. The different levels that the inputs to valuation techniques are used to measure fair value of financial and non-financial instruments have been defined as follows:
  - Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date. A market is regarded as active where a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis.
  - Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
  - Level 3: Unobservable inputs for the asset or liability. The fair value of the Group's investment in available-for-sale financial assets non-current is included in Level 3.

C. The related information of financial and non-financial instruments measured at fair value by level on the basis of the nature, characteristics and risks of the assets and liabilities at September 30, 2016, December 31, 2015 and September 30, 2015 is as follows:

|                                     | September 30, 2016 |           |            |           |
|-------------------------------------|--------------------|-----------|------------|-----------|
|                                     | Level 1            | Level 2   | Level 3    | Total     |
| Recurring fair value measurements   |                    |           |            |           |

D.For the nine months ended September 30, 2016 and 2015, there was no transfer into or out from Level 3.

# 13. SUPPLEMENTARY DISCLOSURES

- (1) Significant transactions information
  - A. Loans to others: None.
  - B. Provision of endorsements and guarantees to others: None.
  - C. Holding of marketable securities at the end of the period (not including subsidiaries, associates and joint ventures): Please refer to table 1.
  - D. Acquisition or sale of the same security with the accumulated cost exceeding \$300 million or 20% of the Company's paid-in capital: None.
  - E. Acquisition of real estate reaching \$300 million or 20% of paid-in capital or more: None.
  - F. Disposal of real estate reaching \$300 million or 20% of paid-in capital or more: None.
  - G. Purchases or sales of goods from or to related parties reaching \$100 million or 20% of paid-in capital or more: None.

- H. Receivables from related parties reaching \$100 million or 20% of paid-in capital or more: None.
- I. Trading in derivative instruments undertaken during the reporting periods: None.
- J. Significant inter-company transactions during the reporting periods: Please refer to table 2.

#### (2) Information on investees

Names, locations and other information of investee companies (not including investees in Mainland China): Please refer to table 3.

# (3) Information on investments in Mainland China

- A. Basic information: Please refer to table 4.
- B. Significant transactions, either directly or indirectly through a third area, with investee companies in the Mainland Area: None.

# 14. SEGMENT INFORMATION

## (1) General information

The Group operates business only in a single industry, new drug research. The chief operating decision-maker, who allocates resources and assesses performance of the Group as a whole, has identified that the Group has only one reportable operating segment.

## (2) Measurement of segment information

- A. The chief operating decision-maker evaluates the performance of the operating segments based on income before tax. The significant accounting policies and estimates of the operating segment and the accounting policies, estimates and assumptions described in Notes 4 and 5 of the consolidated financial statements are the same.
- B. The financial information reported to the chief operating decision-maker and the financial information of the consolidated statements of comprehensive income are the same.
