OBI PHARMA, INC. AND SUBSIDIARIES CONSOLIDATED FINANCIAL STATEMENTS AND INDEPENDENT AUDITORS' REVIEW REPORT JUNE 30, 2020 AND 2019

For the convenience of readers and for information purpose only, the auditors' report and the accompanying financial statements have been translated into English from the original Chinese version prepared and used in the Republic of China. In the event of any discrepancy between the English version and the original Chinese version or any differences in the interpretation of the two versions, the Chinese-language auditors' report and financial statements shall prevail.

INDEPENDENT AUDITORS' REVIEW REPORT TRANSLATED FROM CHINESE

To the Board of Directors and Shareholders of OBI PHARMA, INC.

Introduction

We have reviewed the accompanying consolidated balance sheets of OBI PHARMA, INC. and subsidiaries (the "Group") as at June 30, 2020 and 2019, and the related consolidated statements of comprehensive income for the three months and six months then ended, as well as the related consolidated statements of changes in equity and of cash flows for the six months then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies. Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and International Accounting Standard 34, "Interim Financial Reporting" as endorsed by the Financial Supervisory Commission. Our responsibility is to express a conclusion on these consolidated financial statements based on our reviews.

Scope of Review

We conducted our reviews in accordance with the Statement of Auditing Standards No. 65, "Review of Financial Information Performed by the Independent Auditor of the Entity" in the Republic of China. A review of consolidated financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our reviews, nothing has come to our attention that causes us to believe that the accompanying consolidated financial statements do not present fairly, in all material respects, the consolidated financial position of the Group as at June 30, 2020 and 2019, and of its consolidated financial performance for the three months and six months then ended and its consolidated cash flows for the six months then ended in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and International Accounting Standard 34, "Interim Financial Reporting" as endorsed by the Financial Supervisory Commission.

David Teng

Liang, Hua-Ling

For and on behalf of PricewaterhouseCoopers, Taiwan August 5, 2020

The accompanying consolidated financial statements are not intended to present the financial position and results of operations and cash flows in accordance with accounting principles generally accepted in countries and jurisdictions other than the Republic of China. The standards, procedures and practices in the Republic of China governing the audit of such financial statements may differ from those generally accepted in countries and jurisdictions other than the Republic of China. Accordingly, the accompanying consolidated financial statements and report of independent accountants are not intended for use by those who are not informed about the accounting principles or auditing standards generally accepted in the Republic of China, and their applications in practice.

As the financial statements are the responsibility of the management, PricewaterhouseCoopers cannot accept any liability for the use of, or reliance on, the English translation or for any errors or misunderstandings that may derive from the translation.

OBI PHARMA, INC. AND SUBSIDIARIES NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS SIX MONTHS ENDED JUNE 30, 2020 AND 2019

(Expressed in thousands of New Taiwan dollars, except as otherwise indicated)

(UNAUDITED)

1. HISTORY AND ORGANISATION

OBI PHARMA, INC. (the "Company") was established on April 29, 2002 upon approval by the Ministry of Economic Affairs. The Company conducted the initial public offering in May 2012, and traded its shares on the Emerging Stock Market of the Taipei Exchange (formerly GreTai Securities Market) since March 23, 2015. The Company and its subsidiaries (collectively referred herein as the "Group") are primarily engaged in new drugs research.

2. <u>THE DATE OF AUTHORISATION FOR ISSUANCE OF THE CONSOLIDATED FINANCIAL STATEMENTS AND PROCEDURES FOR AUTHORISATION</u>

These consolidated financial statements were reported to the Board of Directors on August 5, 2020.

3. APPLICATION OF NEW STANDARDS, AMENDMENTS AND INTERPRETATIONS

(1) Effect of the adoption of new issuances of or amendments to International Financial Reporting Standards ("IFRSs") as endorsed by the Financial Supervisory Commission ("FSC")

New standards, interpretations and amendments endorsed by the FSC effective from 2020 are as follows:

	Effective date by
	International
	Accounting
New Standards, Interpretations and Amendments	Standards Board
Amendments to IAS 1 and IAS 8, 'Disclosure initiative-definition of	January 1, 2020
material'	
Amendments to IFRS 3, 'Definition of a business'	January 1, 2020
Amendments to IFRS 9, IAS 39 and IFRS 7, 'Interest rate benchmark	January 1, 2020
reform'	
Amendment to IFRS 16, 'Covid-19-related rent concessions'	June 1, 2020

The above standards and interpretations have no significant impact to the Group's financial condition and financial performance based on the Group's assessment.

(2) Effect of new issuances of or amendments to IFRSs as endorsed by the FSC but not yet adopted by the Group

None.

(3) IFRSs issued by IASB but not yet endorsed by the FSC

New standards, interpretations and amendments issued by IASB but not yet included in the IFRSs as endorsed by the FSC are as follows:

	Effective date by
	International
	Accounting

The above standards and interpretations have no significant impact to the Group's financial condition and financial performance based on the Group's assessment.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of these consolidated financial statements are set out below. These policies have been consistently applied to all the periods presented, unless otherwise stated.

(1) Compliance statement

The consolidated financial statements of the Group have been prepared in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and the International Accounting Standards 34, "Interim financial reporting" as endorsed by the FSC.

(2) Basis of preparation

- A. Except for the financial assets at fair value through profit or loss and financial assets at fair value through other comprehensive income, these consolidated financial statements have been prepared under the historical cost convention.
- B. The preparation of financial statements in compliance with International Financial Reporting Standards, International Accounting Stardards, IFRIC Interpretations, and SIC Interpretations as endorsed by the FSC (collectively referred herein as the "IFRSs") requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements are disclosed in Note 5.

(3) Basis of consolidation

- A. Basis for preparation of consolidated financial statements:
 - (a) All subsidiaries are included in the Group's consolidated financial statements. Subsidiaries are all entities (including structured entities) controlled by the Group. The Group controls an entity when the Group is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Consolidation of subsidiaries begins from the date the Group obtains control of the subsidiaries and ceases when the Group loses control of the subsidiaries.
 - (b) Inter-company transactions, balances and unrealised gains or losses on transactions between companies within the Group are eliminated. Accounting policies of subsidiaries have been adjusted where necessary to ensure consistency with the policies adopted by the Group.
 - (c) When the Group loses control of a subsidiary, the Group remeasures any investment retained in the former subsidiary at its fair value. That fair value is regarded as the fair value on initial recognition of a financial asset or the cost on initial recognition of the associate or joint venture. Any difference between fair value and carrying amount is recognised in profit or loss. All amounts previously recognised in other comprehensive income in relation to the subsidiary are reclassified to profit or loss on the same basis as would be required if the related assets or liabilities were disposed of. That is, when the Group loses control of a subsidiary, all gains or losses previously recognised in other comprehensive income in relation to the subsidiary should be reclassified from equity to profit or loss, if such gains or losses would be reclassified to profit or loss when the related assets or liabilities are disposed of.
- B. Subsidiaries included in the consolidated financial statements and movements for the period are as follows:

Name of	Name of	Main business	June 30,	December 31,	June 30,	
investor	subsidiary	activities	2020	2019	2019	Description
The Company	OBI Pharma Limited	Investing and trading	100.00	100.00	100.00	
The Company	OBI Pharma USA, Inc.	Biotechnology development	100.00	100.00	100.00	
The Company	AP Biosciences, Inc.	Biotechnology development	67.00	67.00	67.00	Note
The Company	OBI Pharma Australia Pty Ltd.	Biotechnology development	100.00	100.00	100.00	
OBI Pharma Limited	OBI Pharma (Shanghai) Limited	Biotechnology development	100.00	100.00	100.00	

Note: The subsidiary, AP Biosciences, Inc., planned to increase its capital by issuing 13,600 thousand new shares and set the effective date on June 10, 2020. However, as the Company did not acquire shares proportionally to its interest and the capital increase is yet to be completed, the shareholding ratio remained unchanged.

- C. Subsidiaries not included in the consolidated financial statements: None.
- D. Adjustments for subsidiaries with different balance sheet dates: None.
- E. Significant restrictions: None.
- F. Subsidiaries that have non-controlling interests that are material to the Group: None.

As of June 30, 2020, December 31, 2019 and June 30, 2019, the non-controlling interest amounted to \$250,563, \$99,175 and \$113,940, respectively. The information on non-controlling interest and respective subsidiaries is as follows:

				No	on-contro	lling interest			
		June 30	0, 2020) Decembe		r 31, 2019	June 3	June 30, 2019	
	Principal					-			
Name of	place of		Ownership			Ownership		Ownership	
subsidiary	business	Amount	(%)	A	mount	(%)	Amount	(%)	Description
AP Biosciences,	Taiwan	\$ 250,563	33%	\$	99,175	33%	\$ 113,940	33%	(Note)
Inc.									

Note: The subsidiary, AP Biosciences, Inc., set the effective date of capital increase on June 10, 2020. However, as the capital increase is yet to be completed as of June 30, 2020, the shareholding ratio remained unchanged.

Summarised financial information of the subsidiaries:

Balance sheets

		June 30, 2020	December 31, 2019			June 30, 2019

(4) Foreign currency translation

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates (the "functional currency"). The consolidated financial statements are presented in New Taiwan dollars, which is the Company's functional and the Group's presentation currency.

A. Foreign currency transactions and balances

- (a) Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions or valuation where items are remeasured. Foreign exchange gains and losses resulting from the settlement of such transactions are recognised in profit or loss in the period in which they arise.
- (b) Monetary assets and liabilities denominated in foreign currencies at the period end are retranslated at the exchange rates prevailing at the balance sheet date. Exchange differences arising upon re-translation at the balance sheet date are recognised in profit or loss.
- (c) Non-monetary assets and liabilities denominated in foreign currencies held at fair value through profit or loss are re-translated at the exchange rates prevailing at the balance sheet date; their translation differences are recognised in profit or loss. Non-monetary assets and liabilities denominated in foreign currencies held at fair value through other comprehensive income are re-translated at the exchange rates prevailing at the balance sheet date; their translation differences are recognised in other comprehensive income. However, non-monetary assets and liabilities denominated in foreign currencies that are not measured at fair value are translated using the historical exchange rates at the dates of the initial transactions.
- (d) All other foreign exchange gains and losses based on the nature of those transactions are presented in the statement of comprehensive income within "other gains and losses".

B. Translation of foreign operations

The operating results and financial position of all the group entities that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- (a) Assets and liabilities for each balance sheet presented are translated at the closing exchange rate at the date of that balance sheet;
- (b) Income and expenses for each statement of comprehensive income are translated at average exchange rates of that period; and
- (c) All resulting exchange differences are recognised in other comprehensive income.

(5) Classification of current and non-current items

- A. Assets that meet one of the following criteria are classified as current assets:
 - (a) Assets arising from operating activities that are expected to be realised, or are intended to be sold or consumed within the normal operating cycle;
 - (b) Assets held mainly for trading purposes;
 - (c) Assets that are expected to be realised within twelve months from the balance sheet date;
 - (d) Cash and cash equivalents, excluding restricted cash and cash equivalents and those that are to be exchanged or used to settle liabilities more than twelve months after the balance sheet date.

Otherwise, they are classified as non-current assets.

- B. Liabilities that meet one of the following criteria are classified as current liabilities:
 - (a) Liabilities that are expected to be settled within the normal operating cycle;
 - (b) Liabilities arising mainly from trading activities;
 - (c) Liabilities that are to be settled within twelve months from the balance sheet date;
 - (d) Liabilities for which the repayment date cannot be extended unconditionally to more than twelve months after the balance sheet date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

Otherwise, they are classified as non-current liabilities.

(6) Cash equivalents

Cash equivalents refer to short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. Time deposits that meet the definition above and are held for the purpose of meeting short-term cash commitments in operations are classified as cash equivalents.

(7) Financial assets at fair value through profit or loss

- A. Financial assets at fair value through profit or loss are financial assets that are not measured at amortised cost or fair value through other comprehensive income. Financial assets at amortised cost or fair value through other comprehensive income are designated as at fair value through profit or loss at initial recognition when they eliminate or significantly reduce a measurement or recognition inconsistency.
- B. On a regular way purchase or sale basis, financial assets at fair value through profit or loss are recognised and derecognised using trade date accounting.
- C. At initial recognition, the Group measures the financial assets at fair value and recognises the transaction costs in profit or loss. The Group subsequently measures the financial assets at fair value, and recognises the gain or loss in profit or loss.
- D. The Group recognises the dividend income when the right to receive payment is established, future economic benefits associated with the dividend will flow to the Group and the amount of the dividend can be measured reliably.

(8) Financial assets at fair value through other comprehensive income

- A. Financial assets at fair value through other comprehensive income comprise equity securities which are not held for trading, and for which the Group has made an irrevocable election at initial recognition to recognise changes in fair value in other comprehensive income.
- B. On a regular way purchase or sale basis, financial assets at fair value through other comprehensive income are recognised and derecognised using trade date accounting.
- C. At initial recognition, the Group measures the financial assets at fair value plus transaction costs, and subsequently measured it at fair value. The changes in fair value of equity investments that were recognised in other comprehensive income are reclassified to retained earnings and are not reclassified to profit or loss following the derecognition of the investment. Dividends are recognised as revenue when the right to receive payment is established, future economic benefits associated with the dividend will flow to the Group and the amount of the dividend can be measured reliably.

(9) Impairment of financial assets

For financial assets at amortised cost, at each reporting date, the Group recognises the impairment provision for 12 months expected credit losses if there has not been a significant increase in credit risk since initial recognition or recognises the impairment provision for the lifetime expected credit losses (ECLs) if such credit risk has increased since initial recognition after taking into consideration all reasonable and verifiable information that includes forecasts. On the other hand, for accounts receivable or contract assets that do not contain a significant financing component, the Group recognises the impairment provision for lifetime ECLs.

(10) Derecognition of financial assets

The Group derecognises a financial asset when the contractual rights to receive the cash flows from the financial asset expire.

(11) Property, plant and equipment

- A. Property, plant and equipment are initially recorded at cost.
- B. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised. All other repairs and maintenance are charged to profit or loss during the financial period in which they are incurred.
- C. Land is not depreciated. Other property, plant and equipment apply cost model and are depreciated using the straight-line method to allocate their cost over their estimated useful lives.
- D. The assets' residual values, useful lives and depreciation methods are reviewed, and adjusted if appropriate, at each balance sheet date. If expectations for the assets' residual values and useful lives differ from previous estimates or the patterns of consumption of the assets' future economic benefits embodied in the assets have changed significantly, any change is accounted for as a change in estimate under IAS 8, 'Accounting Policies, Changes in Accounting Estimates and Errors', from the date of the change. The estimated useful lives of property, plant and equipment are as follows:

Buildings and structures 50 years
Lab equipment 3~5 years
Office equipment 3~5 years
Leasehold improvements 3~5 years

(12) Operating leases (lessee) - right-of-use assets / lease liabilities

- A. Leases are recognised as a right-of-use asset and a corresponding lease liability at the date at which the leased asset is available for use by the Group. For short-term leases or leases of low-value assets, lease payments are recognised as an expense on a straight-line basis over the lease term.
- B. Lease liabilities include the net present value of the remaining lease payments at the commencement date, discounted using the incremental borrowing interest rate. Lease payments are comprised of fixed payments, less any lease incentives receivable. The Group subsequently measures the lease liability at amortised cost using the interest method and recognises interest expense over the lease term. The lease liability is remeasured and the amount of remeasurement is recognised as an adjustment to the right-of-use asset when there are changes in the lease term or lease payments and such changes do not arise from contract modifications.

- C. At the commencement date, the right-of-use asset is stated at cost comprising the following:
 - (a) The amount of the initial measurement of lease liability;
 - (b) Any lease payments made at or before the commencement date; and
 - (c) Any initial direct costs incurred by the lessee.

The right-of-use asset is measured subsequently using the cost model and is depreciated from the commencement date to the earlier of the end of the asset's useful life or the end of the lease term. When the lease liability is remeasured, the amount of remeasurement is recognised as an adjustment to the right-of-use asset.

(13) <u>Intangible assets</u>

A. Patent and acquired special technology:

- (a) Patents acquired in intellectual property right as equity are recognised at fair value at the acquisition date, and amortised on a straight-line basis over the estimated useful life of 17 years.
- (b) If acquired by cash, it is recorded at acquisition cost; if acquired through business combination, it is recorded at fair value as measured at the acquisition date. The estimated useful life is 2 to 10 years, and it is amortised on a straight-line basis.

B. Computer software

Computer software is stated at cost and amortised on a straight-line basis over its estimated useful life of 3 to 5 years.

C. Goodwill

Goodwill arises in a business combination accounted for by applying the acquisition method.

(14) Impairment of non-financial assets

- A. The Group assesses at each balance sheet date the recoverable amounts of those assets where there is an indication that they are impaired. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell or value in use. Except for goodwill, when the circumstances or reasons for recognising impairment loss for an asset in prior years no longer exist or diminish, the impairment loss is reversed. The increased carrying amount due to reversal should not be more than what the depreciated or amortised historical cost would have been if the impairment had not been recognised.
- B. The recoverable amount of goodwill is evaluated periodically. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. Impairment loss of goodwill previously recognised in profit or loss shall not be reversed in the following years.

C. For the purpose of impairment testing, goodwill acquired in a business combination is allocated to each of the cash-generating units, or groups of cash-generating units, that is/are expected to benefit from the synergies of the business combination. Each unit or group of units to which the goodwill is allocated represents the lowest level within the entity at which the goodwill is monitored for internal management purposes. Goodwill is monitored at the operating segment level.

(15) Borrowings

Borrowings comprise long-term and short-term bank borrowings and other short-term loans. Borrowings are recognised initially at fair value, net of transaction costs incurred. Borrowings are subsequently stated at amortised cost; any difference between the proceeds (net of transaction costs) and the redemption value is recognised in profit or loss over the period of the borrowings using the effective interest method.

(16) Derecognition of financial liabilities

A financial liability is derecognised when the obligation specified in the contract is either discharged or cancelled or expires.

(17) Employee benefits

A. Short-term employee benefits

Short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in respect of service rendered by employees in a period and should be recognised as expenses in that period when the employees render service.

B. Pensions - Defined contribution plans

For defined contribution plans, the contributions are recognised as pension expenses when they are due on an accrual basis. Prepaid contributions are recognised as an asset to the extent of a cash refund or a reduction in the future payments.

C. Employees' compensation and directors' remuneration

Employees' compensation and directors' remuneration are recognised as expense and liability, provided that such recognition is required under legal or constructive obligation and those amounts can be reliably estimated. Any difference between the resolved amounts and the subsequently actual distributed amounts is accounted for as changes in estimates.

(18) Employee share-based payment

For the equity-settled share-based payment arrangements, the employee services received are measured at the fair value of the equity instruments granted at the grant date, and are recognised as compensation cost over the vesting period, with a corresponding adjustment to equity. The fair value of the equity instruments granted shall reflect the impact of market vesting conditions and non-

market vesting conditions. Compensation cost is subject to adjustment based on the service conditions that are expected to be satisfied and the estimates of the number of equity instruments that are expected to vest under the non-market vesting conditions at each balance sheet date. Ultimately, the amount of compensation cost recognised is based on the number of equity instruments that eventually vest.

(19) Income tax

- A. The tax expense for the period comprises current and deferred tax. Tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or items recognised directly in equity, in which cases the tax is recognised in other comprehensive income or equity.
- B. The current income tax expense is calculated on the basis of the tax laws enacted or substantively enacted at the balance sheet date in the countries where the Company and its subsidiaries operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in accordance with applicable tax regulations. It establishes provisions where appropriate based on the amounts expected to be paid to the tax authorities. An additional tax is levied on the unappropriated retained earnings and is recorded as income tax expense in the year the stockholders resolve to retain the earnings.
- C. Deferred income tax is recognised, using the balance sheet liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated balance sheet. However, the deferred income tax is not accounted for if it arises from initial recognition of goodwill or of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred tax is provided on temporary differences arising on investments in subsidiaries except where the timing of the reversal of the temporary difference is controlled by the Group and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the balance sheet date and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.
- D. Deferred income tax assets are recognised only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised. At each balance sheet date, unrecognised and recognised deferred income tax assets are reassessed.
- E. Current income tax assets and liabilities are offset and the net amount reported in the balance sheet when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. Deferred income tax assets and liabilities are offset on the balance sheet when the entity has the legally enforceable right to offset current tax assets against current tax liabilities and they are levied by the same taxation authority on either the same entity or different entities that intend to settle on a net basis or realise the asset and settle the liability simultaneously.

- F. A deferred tax asset shall be recognised for the carryforward of unused tax credits resulting from research and development expenditures, to the extent that it is possible that future taxable profit will be available against which the unused tax credits can be utilised.
- G. The interim period income tax expense is recognised based on the estimated average annual effective income tax rate expected for the full financial year applied to the pretax income of the interim period, and the related information is disclosed accordingly.

(20) Share capital

- A. Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or stock options are shown in equity as a deduction, net of tax, from the proceeds.
- B. Where the Company repurchases the Company's equity share capital that has been issued, the consideration paid, including any directly attributable incremental costs (net of income taxes) is deducted from equity attributable to the Company's equity holders. Where such shares are subsequently reissued, the difference between their book value and any consideration received, net of any directly attributable incremental transaction costs and the related income tax effects, is included in equity attributable to the Company's equity holders.

(21) Revenue recognition

Revenue from licensing intellectual property

- A. The Group entered into a contract with a customer to grant a license of patents to the customer. Given the license is distinct from other promised goods or services in the contract, the Group recognises the revenue from licensing when the license is transferred to a customer either at a point in time or over time based on the nature of the license granted. The nature of the Group's promise in granting a license is a promise to provide a right to access the Group's intellectual property if the Group undertakes activities that significantly affect the patents to which the customer has rights, the customer is affected by the Group's activities and those activities do not result in the transfer of a good or a service to the customer as they occur. The royalties are recognised as revenue on a straight-line basis throughout the licensing period. In case the abovementioned conditions are not met, the nature of the Group's promise in granting a license is a promise to provide a right to use the Group's intellectual property and therefore the revenue is recognised when transferring the license to a customer at a point in time.
- B. Some contracts require a sales-based royalty in exchange for a license of intellectual property. The Group recognises revenue when the performance obligation has been satisfied and the subsequent sale occurs.

(22) Operating segments

Operating segments are reported in a manner consistent with the internal reporting provided to the Chief Operating Decision-Maker, who is responsible for allocating resources and assessing performance of the operating segments.

5. <u>CRITICAL ACCOUNTING JUDGEMENTS</u>, <u>ESTIMATES AND KEY SOURCES OF ASSUMPTION UNCERTAINTY</u>

The preparation of these consolidated financial statements requires management to make critical judgements in applying the Group's accounting policies and make critical assumptions and estimates concerning future events. Assumptions and estimates may differ from the actual results and are continually evaluated and adjusted based on historical experience and other factors. Critical judgements adopted in the accounting policies are as follows:

(1) Impairment assessment of intangible assets (excluding goodwill)

In accordance with IAS 36, the Group determines whether an intangible asset (excluding goodwill) may be impaired requiring significant judgements. The Group assesses whether there is any indication for impairment based on internal and external information, including the plan and progress of research and development project and the prospect of such technology.

(2) Impairment assessment of goodwill

The impairment assessment of goodwill relies on the Group's subjective judgement, including identifying cash-generating units, allocating assets and liabilities as well as goodwill to related cash-generating units, and determining the recoverable amounts of related cash-generating units.

6. DETAILS OF SIGNIFICANT ACCOUNTS

(1) Cash and cash equivalents

	 June 30, 2020	De	cember 31, 2019	 June 30, 2019
Cash on hand	\$ 130	\$	130	\$ 130
Checking accounts and demand deposits	631,450		980,227	2,275,040
Time deposits	 3,068,140		3,570,757	 2,920,516
	\$ 3,699,720	\$	4,551,114	\$ 5,195,686

- A. The Group transacts with a variety of financial institutions all with high credit quality to disperse credit risk, so it expects that the probability of counterparty default is remote.
- B. The Group has no cash and cash equivalents pledged to others.

(2) Financial assets at fair value through profit or loss

Items	Jun	ne 30, 2020
Current item:		
Financial assets mandatorily measured at fair value		
through profit or loss		
Listed stocks	\$	89,923
Open-end fund		262,528
		352,451
Valuation adjustment		9,487
	\$	361,938

- A. The Group recognised a gain of \$16,552 on financial assets at fair value through profit or loss for the six months ended June 30, 2020. There was no such transaction in the first half of 2019.
- B. The Group has no financial assets at fair value through profit or loss pledged to others as collateral.
- C. Information relating to credit risk of financial assets at fair value through profit or loss is provided in Note 12(2).

(3) Financial assets at fair value through other comprehensive income

Items		June 30, 2020	De	ecember 31, 2019		June 30, 2019
Non-current item:						
Unlisted stocks	\$	27,181	\$	27,181	\$	27,181
Valuation adjustment	(16,714)	(18,863)	(19,870)
-	\$	10,467	\$	8,318	\$	7,311

- A. The Group has elected to classify equity investments that are considered to be strategic investments as financial assets at fair value through other comprehensive income. The fair value of such investments amounted to \$10,467, \$8,318 and \$7,311 as at June 30, 2020, December 31, 2019 and June 30, 2019, respectively.
- B. Amounts recognised in other comprehensive income in relation to the financial assets at fair value through other comprehensive income are listed below:

		Three months	s ended June	30
		2020	20	019
Equity instruments at fair value through other				
comprehensive income				
Fair value change recognised in other				
comprehensive income	(\$	169)	(\$	1,249)

	 Six months 6	ne 30		
	 2020		2019	
Equity instruments at fair value through other				
comprehensive income				
Fair value change recognised in other				
comprehensive income	\$ 2,149	(\$		143)

- C. As at June 30, 2020, December 31, 2019 and June 30, 2019, without taking into account any collateral held or other credit enhancements, the maximum exposure to credit risk in respect of the amount that best represents the financial assets at fair value through other comprehensive income held by the Group was \$10,467, \$8,318 and \$7,311, respectively.
- D. Information relating to credit risk of financial assets at fair value through other comprehensive income is provided in Note 12(2).

(4) Property, plant and equipment

The Group's property, plant and equipment are mainly for its own use. Details are as follows:

	Land	Buildings and structures	Lab equipment	Office equipment	Leasehold improvements	Total
At January 1, 2020						
Cost	\$ 87,514	\$ 26,818	\$ 320,696	\$ 22,316	\$ 62,203	\$ 519,547
Accumulated						
depreciation		(10,171)	(198,426)	(18,795)	(38,668)	(266,060)

Note 1: The reclassifications resulted from a transfer from prepayments for business facilities (shown as 'other non-current asset') to property, plant and equipment.

Note 2: Information about the property, plant and equipment that were pledged to others as collateral is provided in Note 8.

Note 3: Please refer to Note 6(21).

(5) <u>Leasing arrangements - lessee</u>

- A. The Group leases various assets including office space and business vehicles. Rental contracts are typically made for periods of 1 to 10 years. Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions.
- B. Short-term leases with a lease term of 12 months or less comprise offices. Low-value assets comprise photocopiers. For the three months and six months ended June 30, 2020 and 2019, payments of lease commitments for short-term leases amounted to \$1,094, \$4,315, \$2,239 and \$9,404, respectively.
- C. The carrying amounts of right-of-use assets and the depreciation charge are as follows:

	Jı	ane 30, 2020	De	cember 31, 2019	Ju	ne 30, 2019
	Ca	rrying amount	C	arrying amount	Car	rying amount

	\$	22,032	\$	12,758

- D. For the six months ended June 30, 2020 and 2019, the Group increased 'right-of-use assets' by \$14,608 and \$33,143, respectively.
- E. Information on profit or loss in relation to lease contracts is as follows:

	 Three months	ended	June 30,
	 2020		2019
Items affecting profit or loss			
Interest expense on lease liabilities	\$ 634	\$	496

- B. The Company purchased patents named "OPT-822", therapeutically metastatic breast cancer vaccines, and "OPT-80", Macrolide, from Optimer Pharmaceuticals, Inc. (the name "Optimer" is no longer used since January 2013 and the name was changed to "OBI-822/821" after the organisation changed in October 2012) on December 29, 2003. The main contract information is as follows:
 - (a) The patent amounting to USD 6 million (approximately NTD 204,000) based on the appraisal report, was acquired as intellectual property right through equity of 20,400 thousand shares.
 - (b) The Company signed an authorised sale contract for Antibiotics-Fidaxomicin with OPT. The contract states that the Company must pay royalty fees to OPT based on 17% or 22% of sales under the revenue achievements. The payment period of the royalty fee is the duration of patent right or ten years starting from the initial sales, whichever is later.
 - (c) On October 2, 2015, the Company entered into a contract with Optimer Pharmaceuticals, LLC. (hereafter referred to as "Optimer"), agreeing to transfer all the rights of DIFICIDTM (Fidaxomicin) in terms of marketing approval and filing a trademark application pursuant to Taiwan legislations. The contract will expire on November 27, 2028 when the patent term lapses. The contract provides that the Company is obliged to transfer all related rights to Optimer. In return, Optimer is obliged to pay the Company (a) US\$3 million of contract value; (b) a maximum of US\$3.25 million of accumulated net sales revenue and additional US\$1 million of milestone payment for each new indication; (c) sales royalty calculated based on a certain percentage of net sales revenue. As for all business activities related to DIFICIDTM, it is handed over to Optimer's associate in Taiwan, Merck Sharp & Dohme (I.A.) LLC. Taiwan Branch (hereafter referred to as "MSD"). In addition, the authorised sale contract mentioned in Note 6(6)B.(b) has been terminated when the contract value of this transfer contract was settled based on mutual agreement. For the three months and six months ended June 30, 2020 and 2019, the Company recognised the aforementioned royalty income of \$267, \$136, \$546 and \$350, respectively.

- (d) The Company needs to pay the annual fee and achieved milestones. As of June 30, 2020, the remaining unpaid amount for achieved milestones amounted to US\$10 million. The amount of payment was determined based on whether the milestones in the agreement are achieved or not. Furthermore, the Company must pay royalty fees based on a certain percentage of the sales of patented products annually.
- C. In order to improve mass production and manufacturing process of OBI-822 for expanding global market, the Company has signed an exclusive patent license for the Globo H series' chemosynthesis of carbohydrates with Academia Sinica on April 23, 2014, and the contract period is from April 23, 2014 to the expiration of protection duration of the last patented product. The Company must pay upfront patent licensing fees and royalty fees in accordance with the contract. Except for royalty fees, the Company assesses whether to pay periodical patent licensing fees based on 4 achieved milestones. The total contract amount was approximately \$60,000. Further, pursuant to the supplements and amendments agreement on February 18, 2016, the patent licensing fees was reduced to \$57,320. As of June 30, 2020, the Company paid royalty fees of \$20,000 in 2014, milestone patent licensing fees of \$27,320 in 2016 and \$10,000 in 2017. These fees were recognised as research and development expenses.
- D. The Company purchased a patent named "product development project of botulinum" (OBI-858) from Amaran Biotechnology Inc. on March 2, 2012, which amounted to \$42,858 based on external experts' valuation.
- E. In 2010, the Company acquired patents named "next-generation cancer vaccine" (OBI-833) and "reagent for cancer screening" (OBI-868). The contract states that the Company must pay royalty fees based on the achieved milestones. In 2013, the Company paid royalty fees of \$1,500 separately for both projects. Furthermore, the Company must pay royalty fees based on a certain percentage of the sales of patented products annually.
- F. On May 31, 2017, the Company entered into an agreement with Threshold Pharmaceuticals, Inc. to acquire the global IP right (excluding Mainland China, Hong Kong, Macao, Taiwan, Japan, South Korea, Singapore, Malaysia, Thailand, Turkey and India) and patent regarding the innovative micromolecule drug TH-3424, which was then renamed OBI-3424.
- G. On July 11, 2017, the Company entered into a licensing agreement with PolyTherics Limited (Abzena) to introduce the ThioBridgeTM linker technology required for the antibody drug conjugate (ADC). Under the terms of the agreement, the Company is obliged to pay a small amount of upfront payment to Abzena to acquire the worldwide exclusive right to use the ThioBridgeTM technology for the development and commercialisation of ADCs targeting of carbohydrates in the Globo series. In the following years, milestone payments amounting up to GBP 128 million will be due whenever the specified milestones are reached. In addition, the Company is also required to pay royalties based on a certain percentage of sales of the products which incorporate the ThioBridgeTM technology.

- H. Aiming to bolster the competitive edge of products and the ability to develop new drugs, on January 10, 2018, the Company issued 1,675 thousand new common stocks in return for AbProtix, Inc.'s 6,700 thousand common stocks of AP Biosciences, Inc., which is equivalent to 67% ownership; the share exchange ratio is 1:4. The Company hired independent experts to issue a purchase price allocation report for the business combination. Based on the report, the Company recognised Patent and acquired special technology, computer software, and goodwill in the amounts of \$449,614, \$105, and \$61,148, respectively.
- I. The Group has no intangible assets pledged to others.

(7) <u>Long-term borrowings</u>

Note 1: The Group negotiated borrowing contract with the bank whereby the principal will be payable quarterly starting from January 2017.

Note 2: Please refer to Note 8 for details.

(8) Pension

- A. The Company and its domestic subsidiaries have established a defined contribution pension plan (the "New Plan") under the Labor Pension Act (the "Act"), covering all regular employees with R.O.C. nationality. Under the New Plan, the Company and its domestic subsidiaries contribute monthly an amount based on 6% of the employees' monthly salaries and wages to the employees' individual pension accounts at the Bureau of Labor Insurance. The benefits accrued are paid monthly or in lump sum upon termination of employment. The pension costs under the defined contribution pension plans of the Group for the three months and six months ended June 30, 2020 and 2019 were \$2,224, \$2,095, \$4,330 and \$4,048, respectively.
- B. OBI Pharma Australia Pty Ltd. and OBI Pharma Limited were not required to set up a policy for employee pension plans. For the pension plan based on local government regulations, OBI Pharma USA, Inc. and OBI Pharma (Shanghai) Limited recognised pension costs of \$949, \$922, \$2,555 and \$1,827 for the three months and six months ended June 30, 2020 and 2019, respectively.

(9) Share-based payment

A. Information on share-based payments made by the Company is as follows:

The options were granted to qualified employees of the Company, the subsidiaries which the Company holds over 50% equity interest, and the branches by issuing new shares of the Company when exercised. The options are valid for 10 years. The major contents were as follows:

Type of agreement	Grant date	No. of units	Subscription share per unit	Vesting conditions	Weighted-average remaining contract period (years)

Note: Expected price volatility rate was estimated by using the average price volatility of similar listed and OTC companies within appropriate period and the Company's historical transaction data since its shares traded on the Emerging Stock Market.

F. For the three months and six months ended June 30, 2020 and 2019, the Group recognised employee stock option plan compensation expense of \$16,133, \$77,403, \$31,894 and \$122,343, respectively.

(10) Share capital

A. As of June 30, 2020, the Company's authorised capital was \$3,000,000, consisting of 300 million shares of ordinary stock (including 24 million shares reserved for employee stock options), and the outstanding capital was \$1,882,287 with a par value of \$10 (in dollars) per share. All proceeds from shares issued have been collected.

Movements in the number of the Company's ordinary shares outstanding are as follows:

	2020	2019
At January 1	188,128,674	173,990,674
Exercise of employee stock options	100,000	-
Cash capital increase	-	15,000,000
Retirement of treasury shares		862,000)
At June 30	188,228,674	188,128,674

B. Treasury stock:

(a) Reason for share reacquisition and movements in the number of the Company's treasury shares are as follows:

	Six months ended June 30, 2019							
	Beginning							
Reason for reacquisition	shares	Additions	Disposal	Ending shares				
To transfer shares to	862	-	862	-				
the employees	thousand shares		thousand shares					

- (b) Pursuant to the R.O.C. Securities and Exchange Act, the number of shares bought back as treasury share should not exceed 10% of the number of the Company's issued and outstanding shares and the amount bought back should not exceed the sum of retained earnings, paid-in capital in excess of par value and realised capital surplus.
- (c) Pursuant to the R.O.C. Securities and Exchange Act, treasury shares should not be pledged as collateral and is not entitled to dividends before it is reissued.
- (d) Pursuant to the R.O.C. Securities and Exchange Act, treasury shares should be reissued to the employees within three years from the reacquisition date and shares not reissued within the three-year period are to be retired. The capital deduction took effect on March 8, 2019 as resolved by the Board of Directors. All treasury shares were retired.
- (e) The price range of actual repurchased treasury shares was between \$431.88 ~ \$454.26 (in dollars). The average repurchased price was \$448.63 (in dollars) and the actual repurchased amount was \$386,721.

(11) Capital surplus

Pursuant to the R.O.C. Company Act, capital surplus arising from paid-in capital in excess of par value on issuance of common stocks and donations can be used to cover accumulated deficit or to issue new stocks or cash to shareholders in proportion to their share ownership, provided that the Company has no accumulated deficit. Further, the R.O.C. Securities and Exchange Act requires that the amount of capital surplus to be capitalised mentioned above should not exceed 10% of the paid-in capital each year. Capital surplus should not be used to cover accumulated deficit unless the legal reserve is insufficient.

(12) Accumulated deficit

A. The current year's earnings, if any, shall first be used to pay all taxes and offset prior years' operating losses and then 10% of the remaining amount shall be set aside as legal reserve. Cash dividends shall first be appropriated, and the remainder, if any, to be retained or to be appropriated shall be resolved by the stockholders at the stockholders' meeting.

- B. The Company is facing a capital intensive industrial environment, with the life cycle of the industry in the growth phase. The residual dividend policy is adopted taking into consideration the Company's operating expansion plans and investment demands. According to the balanced dividend policy adopted by the Board of Directors, stock dividends and cash dividends will be allocated in consideration of the actual net income and funds status and are subject to the approval by the Board of Directors and resolution by shareholders and cash dividends shall account for at least 10% of the total dividends distributed.
- C. Except for covering accumulated deficit, increasing capital or payment of cash, the legal reserve shall not be used for any other purpose. The amount capitalised or the cash payment shall not exceed 25% of the paid-in capital.
- D. As resolved by the shareholders on June 22, 2020 and June 27, 2019, the Company's 2019 and 2018 deficit is as follows:

	Year ended	
	Dece	mber 31, 2019
Accumulated deficit at beginning of the year	(\$	6,514,955)
Net loss for 2019	(1,407,026)

B. Contract liabilities

The Group has recognised the following revenue-related contract assets and liabilities:

	June	e 30, 2020	December 31, 2019	
Contract liabilities: Contract liabilities - royalty agreements	\$	77,640	\$	77,640
	June	e 30, 2019	Januai	ry 1, 2019
Contract liabilities:				
Contract liabilities - royalty agreements	\$		\$	

The Group's subsidiary, AP Biosciences, Inc., entered into a co-development and licensing agreement for new antibody drugs with Tasly Biopharmaceuticals Co., Ltd. on July 26, 2019. AP Biosciences, Inc. offered Tasly Biopharmaceuticals Co., Ltd. three developed antibody products and eight antibodies chosen out of the antibodies in the early stage of research and development for the following co-development to proceed. Tasly Biopharmaceuticals Co., Ltd. is responsible for all the subsequent clinical development following the transfer of professional expertise from AP Biosciences, Inc. to Tasly Biopharmaceuticals Co., Ltd. Tasly Biopharmaceuticals Co., Ltd. will obtain the exclusive manufacture and sale rights in China, Hong Kong and Macao after the successful development of the new drugs. In accordance with the agreement, AP Biosciences, Inc. will receive upfront payments, milestone payments and royalties based on future sales on a percentage stipulated in the agreement. As of June 30, 2020, AP Biosciences, Inc. received the upfront payments amounting to USD2,500 thousand and USD2,000 thousand for the eight antibodies chosen and the three developed antibody products, respectively. The payment for the three developed antibody products was recognised as licensing revenue when the professional expertise was transferred on April 29, 2020 as agreed; while the payment for the eight antibodies chosen has yet to be recognised as revenue and, therefore, was shown as contract liabilities.

A. In accordance with the Articles of Incorporation, a ratio of distributable profit of the current year, after covering accumulated losses, shall be distributed as employees' compensation and directors' and supervisors' remuneration. The ratio shall not be lower than 2% for employees' compensation and shall not be higher than 2% for directors' and supervisors' remuneration. A company may, by a resolution adopted by a majority vote at a meeting of Board of Directors attended by two-thirds of the total number of directors, have the abovementioned employees' compensation distributed in the form of shares or in cash; and in addition thereto a report of such distribution shall be submitted to the shareholders during their meeting. Qualification requirements of employees, including the employees of subsidiaries of the company meeting

- certain specific requirements, entitled to receive aforementioned stock or cash may be specified in the Articles of Incorporation. The term shall be defined by the Board of Directors.
- B. As of June 30, 2020, the Company had an accumulated deficit; thus, no employees' compensation and directors' and supervisors' remuneration was recognised for the three months and six months ended June 30, 2020 and 2019. Information about employees' compensation and directors' and supervisors' remuneration of the Company as approved by the Board of Directors will be posted in the "Market Observation Post System" at the website of the Taiwan Stock Exchange.

(19) Income tax

		2020		2019				
Other related parties								
-Amaran Biotechnology Inc.	\$	8,087	\$	7,076				
		Six months e	ended June 30					
		2020		2019				
Other related parties								
-Amaran Biotechnology Inc.	\$	10,405	\$	7,727				

The Group signed the drugs purchase agreement for clinical trial of OBI-821, OBI-822 and OBI-866 with Amaran Biotechnology Inc. The contract amount was based on mutual agreement.

B. Other payables

	June	20, 2020	Dece	ember 31, 2019	 June 30, 2019
Other related parties					
-Amaran					
Biotechnology Inc.	\$	632	\$	6,013	\$ 6,491

It was paid for research and development expenditures.

C. Property transactions

On March 26, 2016, the Group entered into a purchase agreement for production equipment with Amaran Biotechnology Inc. The Group purchased the existing equipment from Amaran Biotechnology Inc. and made it available for processing related products of OBI-821(Saponin adjuvants), OBI-822 (therapeutically metastatic breast cancer vaccines), Globo H and OBI-858 (product development project of botulinum). The initial acquisition cost of \$108,753 less the carrying amount (net of accumulated depreciation) was the purchase amount. As of June 30, 2020, the Group has paid \$106,233 for production equipment, and all equipment have been transferred.

(4) Key management compensation

	Three months ended June 30						
		2020		2019

Note: The Group has entered into a mortgage contract with E. SUN Bank in 2016. The contract requires a property as collateral and the credit line is \$100 million. Please refer to Note 6(7) for details.

9. <u>SIGNIFICANT CONTINGENT LIABILITIES AND UNRECOGNISED CONTRACT</u> COMMITMENTS

Except for the promised payments described in Note 6(6) Intangible assets, others are as follows:

(1) Pursuant to the government grants for OBI-822 (formerly OPT-822/821), therapeutically metastatic breast cancer vaccines, in Phase II / III obtained by the Company from Department of Industrial Technology of Ministry of Economic Affairs R.O.C. (MOEA) on December 25, 2012, if OBI-822 (formerly OPT-822/821) will be successfully licensed to others, the Company promises to contribute 5% of the signing bonus and achieved milestones as feedback fund and the maximum amount for feedback fund is \$150,256.

- (2) In September 2017, the Company commissioned Pharmacore Biotech Co., Ltd. to build a customised production line for OBI-858 botulinum toxin under an agreement. The contract price totaled \$36,500 plus some other service charges whenever additional machinery and equipment is acquired. As of June 30, 2020, the Company has paid \$34,851.
- (3) In September 2017, the Company commissioned EirGenix, Inc. to jointly develop CRM197 under an agreement. On December 13, 2018, the Company has amended the agreement with EirGenix, Inc. whereby additional tasks were included to further improve the development process. The contract price totaled \$47,848, of which \$40,421 had been paid as of June 30, 2020.

10. SIGNIFICANT DISASTER LOSS

None.

11. SIGNIFICANT EVENTS AFTER THE BALANCE SHEET DATE

None.

12. OTHERS

(1) Capital management

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern through maintaining an optimal capital structure to reduce the cost of capital, and to provide returns for shareholders after the Company turns around from loss to profit. In order to maintain or adjust the capital structure, the Group may increase capital by cash and sell assets to pay off or improve operating capital, adjust the amount of dividends paid to shareholders or capital reduction, etc. The Group monitors capital on the basis of the Debt/Equity ratio. The ratio is calculated by the "Net debt" divided by the "Total equity". The "Net debt" is the "Total liability" less cash and cash equivalents, and the "Total equity" is the same as the consolidated balance sheet.

During 2020, the Group's strategy, which was unchanged from 2019, was to maintain the gearing ratio within reasonable security range. The ratios are as follows:

	Ju	ne 30, 2020	Dece	mber 31, 2019		June 30, 2019
Total liability	\$	361,850	\$	459,145	\$	293,973
Less: Cash and cash						
equivalents	(3,699,720)	(4,551,114)	(5,195,686)
Net debt	(\$	3,337,870)	(\$	4,091,969)	(\$	4,901,713)
Total equity	\$	4,764,539	\$	5,204,021	\$	6,030,656

B. Financial risk management policies

(a) The Group's activities expose it to a variety of financial risks: market risk (including foreign exchange risk and price risk), credit risk and liquidity risk. The Group's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Group's financial position and financial performance.

- (b) Risk management is carried out by a central treasury department (Group treasury) under policies approved by the Board of Directors. Group treasury identifies, evaluates and hedges financial risks in close cooperation with the Company's operating units. The Board provides written principles for overall risk management, as well as written policies covering specific areas and matters, such as foreign exchange risk, interest rate risk, credit risk, use of derivative financial instruments and non-derivative financial instruments, and investment of excess liquidity.
- C. Significant financial risks and degrees of financial risks

(a) Market risk

Foreign exchange risk

- i. The Group operates internationally and is exposed to exchange rate risk arising from the transactions of the Company and its subsidiaries used in various functional currency, primarily with respect to the USD and RMB. Exchange rate risk arises from future commercial transactions and recognised assets and liabilities.
- ii. Management has set up a policy to require group companies to manage their foreign exchange risk against their functional currency. The companies are required to hedge their entire foreign exchange risk exposure with the Group treasury.
- iii. The Group has certain investments in foreign operations, whose net assets are exposed to foreign currency translation risk.
- iv. The Group's businesses involve some non-functional currency operations (the Company's functional currency: NTD; the subsidiaries' functional currencies: USD and RMB). The information on assets and liabilities denominated in foreign currencies whose values would be materially affected by the exchange rate fluctuations is as follows:

					June	30, 2020

v. The total exchange (loss) gain, including realised and unrealised, arising from significant foreign exchange variation on the monetary items held by the Group for the three months and six months ended June 30, 2020 and 2019 amounted to (\$59,066), \$15,973, (\$33,536) and \$29,976, respectively.

Price risk

- i. The Group's equity securities, which are exposed to price risk, are the held financial assets at fair value through profit or loss and financial assets at fair value through other comprehensive income. To manage its price risk arising from investments in equity securities, the Group diversifies its portfolio. Diversification of the portfolio is done in accordance with the limits set by the Group.
- ii. The Group's investments in equity securities comprise shares and open-end funds issued by the domestic companies. The prices of equity securities would change due to the change of the future value of investee companies. If the prices of these equity securities had increased/decreased by 1% with all other variables held constant, post-tax profit for the six months ended June 30, 2020 would have increased/decreased by \$3,619, as a result of gains/losses on equity securities classified as at fair value through profit or loss. Other components of equity would have increased/decreased by \$105 and \$73, respectively, as a result of other comprehensive income classified as equity investment at fair value through other comprehensive income.

Cash flow and fair value interest rate risk

- i. The Group's interest rate risk arises from long-term borrowings. Borrowings issued at variable rates expose the Group to cash flow interest rate risk which is partially offset by cash and cash equivalents held at variable rates. The Group's borrowings were calculated by floating rate and stated at New Taiwan Dollars for the three months and six months ended June 30, 2020 and 2019.
- ii. At June 30, 2020 and 2019, if interest rates had been 1% higher or lower with all other variables held constant, post-tax profit for the six months ended June 30, 2020 and 2019 would have been \$239 and \$244 lower or higher, respectively, mainly as a result of changes in interest expense on floating rate borrowings.

(b) Credit risk

- Credit risk refers to the risk of financial loss to the Group arising from default by the clients or counterparties of financial instruments on the contract obligations. The main factor is that counterparties could not repay in full the accounts receivable based on the agreed terms.
- ii. The Group manages its credit risk taking into consideration the entire group's concern. For banks and financial institutions, only independently rated parties with stable credit rating are accepted. According to the Group's credit policy, each local entity in the Group is responsible for managing and analysing the credit risk for each of their new clients before standard payment and delivery terms and conditions are offered. Internal risk control assesses the credit quality of the customers, taking into account their financial position, past experience and other factors. Individual risk limits are set based on internal or external ratings in accordance with limits set by the Board of Directors. The utilisation of credit limits is regularly monitored.

- iii. Under IFRS 9, if the contract payments were past due over 30 days based on the terms, there has been a significant increase in credit risk on that instrument since initial recognition.
- iv. The Group adopts the assumption under IFRS 9, that is, the default occurs when the contract payments are past due over 90 days.
- v. The Group classifies customer's accounts receivable, contract assets and rent receivable in accordance with customer types. The Group applies the simplified approach using loss rate methodology to estimate expected credit loss under the provision matrix basis.
- vi. The following indicators are used to determine whether the credit impairment of debt instruments has occurred:
 - (i) It becomes probable that the issuer will enter bankruptcy or other financial reorganisation due to their financial difficulties;
 - (ii) The disappearance of an active market for that financial asset because of financial difficulties;
 - (iii) Default or delinquency in interest or principal repayments;
 - (iv) Adverse changes in national or regional economic conditions that are expected to cause a default.
- vii. When estimating the allowance for uncollectible accounts for receivables, the Group incorporates forward-looking information in the adjustment of the loss rate, which is calculated based on historical data from specific periods and current information. As of June 30, 2020, December 31, 2019 and June 30, 2019, the expected loss rate of the Group's accounts receivable that are not past due is immaterial.

(c) Liquidity risk

- Cash flow forecasting is performed by Group treasury to monitor rolling forecasts of the Group's liquidity requirements to ensure it has sufficient cash to meet operational and R&D needs. Such forecasting is in compliance with internal R&D project schedule targets.
- ii. Group treasury invests surplus cash in interest bearing current deposits, time deposits, and foreign currency deposits, choosing instruments with appropriate maturities or sufficient liquidity to provide sufficient headroom as determined by the abovementioned forecasts.
- iii. The table below analyses the Group's non-derivative financial liabilities into relevant maturity groupings based on the remaining period at the balance sheet date to the contractual maturity date for non-derivative financial liabilities. The amounts disclosed in the table are the contractual undiscounted cash flows.

		J	June 30, 2020	0

(including current portion)					

iv. The Group does not expect the timing of occurrence of the cash flows estimated through the maturity date analysis will be significantly earlier, nor expect the actual cash flow amount will be significantly different.

(3) Fair value information

- A. The different levels that the inputs to valuation techniques are used to measure fair value of financial and non-financial instruments have been defined as follows:
 - Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date. A market is regarded as active where a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis.
 - Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
 - Level 3: Unobservable inputs for the asset or liability. The fair value of the Group's investment in financial assets at fair value through other comprehensive income is included in Level 3.
- B. The carrying amount of financial instruments not measured at fair value (including cash and cash equivalents, accounts receivable, other receivables and other payables (including those to related parties)) is a reasonable approximation to their fair value; the interest rate on long-term borrowings (including the portion due within a year or one operating cycle) is close to the market interest rate, therefore their carrying amount is a reasonable basis for the estimation of their fair value.
- C. The related information on financial and non-financial instruments measured at fair value by level on the basis of the nature, characteristics and risks of the assets and liabilities is as follows:

			Jun	e 3	0, 20	020	
	Level 1		Level 2]	Level 3	Total
Assets

D. The methods and assumptions the Group used to measure fair value are as follows:

The instruments the Group used market quoted prices as their fair values (that is, Level 1) are listed below by characteristics:

	Listed stocks	Open-end fund
Market quoted price	Closing price	Net asset value

- E. Financial segment is in charge of valuation procedures for fair value measurements being categorised within Level 3, which is to verify independent fair value of financial instruments. Such assessment is to ensure the valuation results are reasonable by applying independent information to make results close to current market conditions, confirming the resource of information is independent, reliable and in line with other resources and represented as the exercisable price.
- F. The following is the qualitative information on significant unobservable inputs and sensitivity analysis of changes in significant unobservable inputs to valuation model used in Level 3 fair value measurement:

Non-derivative	Fair value at June 30, 2020	Valuation technique	Significant unobservable input	Range (median)	Relationship of inputs to fair value
equity instrument: Unlisted shares	\$ 10,467	Market comparable companies	Price to book ratio multiple	1.55~7.27 (1.94)	The higher the mulitple, the higher the fair value
			Discount for lack of marketability	28.07%~ 58.11% (37%)	The higher the discount for lack of marketability, the lower the fair value
Non-derivative equity instrument:	Fair value at December 31, 2019	Valuation technique	Significant unobservable input	Range (median)	Relationship of inputs to fair value
Unlisted shares	\$ 8,318	Market comparable companies	Price to book ratio multiple	1.09~3.26 (1.75)	The higher the mulitple, the higher the fair value
			Discount for lack of marketability	8.44%~47.77% (21%)	The higher the discount for lack of marketability, the lower the fair value

Non-derivative equity instrument:	Fair value at June 30, 2019	Valuation technique	Significant unobservable input	Range (median)	Relationship of inputs to fair value
Unlisted shares	\$ 7,311	Market comparable companies	Price to book ratio multiple	1.08~2.86 (1.62)	The higher the mulitple, the higher the fair value
			Discount for lack of marketability	25% (25%)	The higher the discount for lack of marketability, the lower the fair value

G. The Group has carefully assessed the valuation models and assumptions used to measure fair value. However, use of different valuation models or assumptions may result in different measurement. The following is the effect of profit or loss or of other comprehensive income from financial assets and liabilities categorised within Level 3 if the inputs used to valuation models have changed:

			June 30, 2020						
			Recognised i	n profit or loss	_	ed in other			
			Favourable	Unfavourable	Favourable	Unfavourable			
	Input	Change	change	change	change	change

	Discount for lack of marketability	±10%	\$ -	\$ -	\$ 244	(\$ 244)

H. The following chart is the movement of Level 3 for the six months ended June 30, 2020 and 2019:

	Six months ended June 30,						
		2020	2019				
Opening net book amount Profit (loss) recognised in other	\$	8,318	\$	7,454			
comprehensive income		2,149 (143)			
Closing net book amount	\$	10,467	\$	7,311			

I. As of June 30, 2020, December 31, 2019 and June 30, 2019, there was no transfer into or out from Level 3.

(4) Impact of COVID-19

Based on the Group's assessment, the COVID-19 pandemic has no significant impact on the Group.

13. <u>SUPPLEMENTARY DISCLOSURES</u>

(1) Significant transactions information

A. Loans to others: Please refer to table 1.

- B. Provision of endorsements and guarantees to others: None.
- C. Holding of marketable securities at the end of the period (not including subsidiaries, associates and joint ventures): Please refer to table 2.
- D. Acquisition or sale of the same security with the accumulated cost exceeding \$300 million or 20% of the Company's paid-in capital: None.
- E. Acquisition of real estate reaching \$300 million or 20% of paid-in capital or more: None.
- F. Disposal of real estate reaching \$300 million or 20% of paid-in capital or more: None.
- G. Purchases or sales of goods from or to related parties reaching \$100 million or 20% of paid-in capital or more: None.
- H. Receivables from related parties reaching \$100 million or 20% of paid-in capital or more: None.
- I. Trading in derivative instruments undertaken during the reporting periods: None.
- J. Significant inter-company transactions during the reporting periods: Please refer to table 3.

(2) Information on investees

Names, locations and other information of investee companies (not including investees in Mainland China): Please refer to table 4.

(3) Information on investments in Mainland China

- A. Basic information: Please refer to table 5.
- B. Significant transactions, either directly or indirectly through a third area, with investee companies in the Mainland Area: None.

(4) Major shareholders information

Please refer to table 6.

14. SEGMENT INFORMATION

(1) General information

The Group operates business only in a single industry, new drug research. The Chief Operating Decision-Maker, who allocates resources and assesses performance of the Group as a whole, has identified that the Group has only one reportable operating segment.

(2) Measurement of segment information

- A. The Chief Operating Decision-Maker evaluates the performance of the operating segments based on income before tax. The significant accounting policies and estimates of the operating segment and the accounting policies, estimates and assumptions described in Notes 4 and 5 of the consolidated financial statements are the same.
- B. The financial information reported to the Chief Operating Decision-Maker and the financial information on the consolidated statements of comprehensive income are the same.

OBI Pharma, Inc. and Subsidiaries

Significant inter-company transactions during the reporting period

Six months ended June 30, 2020

Table 3

Expressed in thousands of NTD (Except as otherwise indicated)

				Transaction					
								Percentage of consolidated total	
Number			Relationship					operating revenues or total	
(Note 1)	Company name	Counterparty	(Note 2)	General ledger account		Amount	Transaction terms	assets (Note 3)	
1	OBI Pharma USA, Inc.	OBI Pharma, Inc.	2	Accounts receivable	\$	31,305	(Note 4)	0.61%	
1	"	n .	"	Service revenue		64,567	"	106.78%	

Note 1: The numbers filled in for the transaction company in respect of inter-company transactions are as follows:

- (1) Parent company is '0'.
- (2) The subsidiaries are numbered in order starting from '1'.

Note 2: Relationship between transaction company and counterparty is classified into the following three categories:

- (1) Parent company to subsidiary.
- (2) Subsidiary to parent company.
- (3) Subsidiary to subsidiary.

Note 3: Regarding percentage of transaction amount to consolidated total operating revenues or total assets, it is computed based on period-end balance of transaction to consolidated total assets for balance sheet accounts and based on accumulated transaction amount for the period to consolidated total operating revenues for income statement accounts.

- Note 4: The transaction terms are based on the mutual agreement.
- Note 5: The Company may decide to disclose or not to disclose transaction details in this table based on the materiality principle.

Note 1: The accounts of the Company are maintained in New Taiwan dollars. Income statement accounts denominated in foreign currencies are translated into New Taiwan dollars at the weighted average exchange rates and balance sheet accounts at spot exchange rates prevailing at the balance sheet date.

Note 2: Inter-company transactions between companies within the Group are eliminated.

Note 3: The subsidiary, AP Biosciences, Inc., planned to increase its capital by issuing 13,600 thousand new shares and set the effective date on June 10, 2020. However, as the Company did not acquire shares proportionally to its interest and the capital increase is yet to be completed, the shareholding ratio remained unchanged.

biotechnology

Note 2: The total investment amount of USD 1.5 million was approved pursuant to the Jing-Shen-II-Zi Letter No.10200125600, No. 10600182730 and No. 10800182030.

Note 3: Abovementioned investment income (loss) was recognised based on the financial reports reviewed by the parent company's CPA.

Note 4: The accounts of the Company are maintained in New Taiwan dollars. Income statement accounts denominated in foreign currencies are translated into New Taiwan dollars at the weighted average exchange rates and balance sheet accounts at spot exchange rates prevailing at the balance sheet date.

OBI Pharma, Inc. and Subsidiaries Major shareholders information

June 30, 2020

Table 6

	Sh	Shares	
Name of major shareholders	Number of shares held	Ownership (%)	
Yi Tai Investment Co., Ltd.	25,765,032	13.68%	
Huei Hong Investment Co., Ltd.	15,545,699	8.25%	

- Note 1: The major shareholders information was derived from the data that the Company issued common shares (including treasury shares) and preference shares in dematerialised form which were registered and held by the shareholders above 5% on the last operating date of each quarter. The share capital which was recorded on the financial statements may be different from the actual number of shares in dematerialised form due to the difference in calculation basis.
- Note 2: If the aforementioned data contains shares which were held in the trust by the shareholders, the data was disclosed as separate account of client which was set by the trustee. As for the shareholder who reports share equity as an insider whose shareholding ratio is greater than 10% in accordance with the Securities and Exchange Act, the shareholding ratio include the self-owned shares and shares held in trust, at the same time, the shareholder has the power to decide how to allocate the trust assets. For the information of reported share equity of insider, please refer to Market Observation Post System.
- Note 3: Basis for preparation of the major shareholders information is calculating balance distribution of each credit transaction under the securities holder list (no sell back of short bonds) which stock transfer was closed at the shareholders' interim meeting.
- Note 4: Ownership (%) = Total number of shares held / Total number of shares in dematerialised form.
- Note 5: Total number of shares in dematerialised form (including treasury shares) amounted to 188,228,674 shares = 188,228,674 (common shares) + 0 (preference shares).
